## TREPOFF IS REAL RULER.

*Car Does What He Advises, Says Sergius Witte.*

*Message from Zemstvos Not Yet Presented.*

*Useless Letter-writing One of Bureaucratic Evils.*

(BY THE ASSOCIATED PRESS—P.M.)

ST. PETERSBURG, June 17.—[By Atlantic Cable.] In the course of an interview yesterday, M. Witte manifested keen feeling over the rise of Gen. Trepoft, as Minister of the Interior, saying:

"I knew nothing of what is being done either for peace or for reform. Tell me what Trepoft advises, and I will tell what the czar will do."

"Trepoft is the real ruler of Russia." There should be systematic departmental operation with expert and technical knowledge. The different departments should be substantially uniform. The adoption of methods and the performance of work every step of which is not clearly indispensable should be eliminated.

A resolute effort should be made to secure brevity on correspondence and the elimination of useless letter-writing. There is a type of bureaucratic who believes that his entire work and that the entire work of the government should be the collecting of papers in reference to a case, commenting with eager minuteness on each and corresponding with other officials in reference thereto. These people really care nothing for the case, but only the documents which will be used.

"In all branches of the government there is a tendency greatly to increase unnecessary and largely perfunctory letter writing. In the army and navy the increase of paper work is a serious menace to the efficiency of fighting officers, who are often required by bureaucrats to spend time in making reports which they should spend in increasing the efficiency of the battle-ships or regiments under them."

"In the civil departments the abuse of letter writing amounts not merely to the waste of time of the government servant responsible for it, but also to the impeding of public business."

It is officially pointed out that the committee's work is not to discover irregularities of business of any officer, but to examine the business methods as outlined.

STORIES FOR MANCHURIA BURN.

(BY THE ASSOCIATED PRESS—P.M.)

MOSCOW, June 16.—Four goods depots belonging to the army commissariat and the mineral water factory were destroyed by fire today. Three explosions preceded the conflagration. The cause is not known. Great quantities of stores intended for the Far East were destroyed. The fire broke out under control late this afternoon.

LIBAU CHURCH SHOT UP.

(BY THE ASSOCIATED PRESS—P.M.)

LIBAU (Russia), June 16.—During services in a church here today ten

men fired revolvers at the pastor, who was dangerously wounded. The pastor had been continuously and vigorously preaching against the employment of violence by the people of Russia in their endeavor to secure reforms in the administration of the country.

AUDIENCE AGAIN POSTPONED.

(BY THE ASSOCIATED PRESS—P.M.)

ST. PETERSBURG, June 16.—Owing to failure of the delegates to settle differences regarding the detail of the make-up of the deputation from the All-Russian Congress of zemstvos and Mayors, which recently met in Moscow and sent a strongly worded message to the Emperor for the summoning of a national assembly, the audience with His Majesty again has been postponed. It is hoped that the differences will be arranged, and that the audience will soon take place.

INTERNAL CRISIS ACUTE.

BIG STRIKES ARE RESUMED.

(BY DIRECT WIRE TO THE TIMES.)

ST. PETERSBURG, June 16.—[Exclusive Dispatch.] The internal crisis has suddenly assumed even more formidable shape than in January. Reports that Gen. Linevich has been outflanked, and that efforts in the direction of peace are not progressing, are overshadowed by a great domestic industrial upheaval.

There was another strike today at the Putiloff Iron Works, where the January strikes began, and 12,000 men are out. Other great factories will be out. The movement during the Russian Whitehouse, which is now beginning. Already workmen in the provinces are joining. The railway employees at Putiloff, the government-owned, are holding up traffic on the trans-Siberian Railway.

Emphatic demands are made everywhere for political as well as economic reforms.

GEN. GOMEZ GROWING WORSE.

HAVANA, June 16.—Since midday the condition of Gen. Maximo Gomez has steadily grown worse. It is now apparent that the gangrene resulting from the movement during the Russian Whitehouse, which is now beginning. Already workmen in the provinces are joining. The railway employees at Putiloff, the government-owned, are holding up traffic on the trans-Siberian Railway.

Emphatic demands are made everywhere for political as well as economic reforms.

WALLACE COMES TO SEE TAFT.

PANAMA, June 16.—John F. Wallace, chief engineer of the Panama Canal, leaves Panama today to confer with Secretary Taft on canal matters and also to purchase materials. Some big orders are ready to be placed, among which will be one for seven million vitrified bricks. Rock crushers and rollers for use in paving Panama will also be purchased.

GAS IN WELL KILLS TWO.

SANTA FE (N. M.), June 16.—At Pico Wells, Melquiades Baca, a brother of Sheriff Carlos Baca of Valencia county, was yesterday overcome by gas in a well 180 feet deep and drowned. A shepherd who went to the rescue of Baca was also overcome by the gas and died. The bodies of the two men were recovered this morning.

DEVASTATED BY CLOUDBURST.

BUDAPEST, June 16.—The eastern district of Budapest, Hungary, has been devastated by a cloudburst. Houses were swept away and eleven lives are already reported to have been lost. The great part of the crops were destroyed and railroad communication interrupted.

## OYAMA READY TO STRIKE A BLOW.

*Russia Might Welcome Armistice If Suggestion Came from the President, but Japan is Strongly Tempted by Her Strategic Advantage.*

(BY THE ASSOCIATED PRESS—P.M.)

ST. PETERSBURG, June 16, 2:15 a.m.—[By Atlantic Cable.] Unless President Roosevelt is able to induce the belligerents in the meantime to agree to an armistice, the fear is general that the interim will witness another bloody battle in Manchuria.

Russia, while she could not place herself in the position of directly questioning an armistice, might welcome it if the suggestion came from the President. Doubt is expressed in certain quarters as to whether even an appeal by President Roosevelt would induce Japan to forego her present strategic advantages and the chances to deliver another blow before the plenipotentiaries meet.

All the news from the front indicates that Field Marshal Oyama is ready to strike, and if in advance of the meeting at Washington, he could administer a crushing defeat to Gen. Linevich, it would be all the more easy for Japan to secure the acceptance of her terms.

JAPANESE ADVANCE.

(BY THE ASSOCIATED PRESS—P.M.)

LONDON, June 17.—The practical certainty now that the peace negotiations cannot begin for another month leads to the conviction that another battle will be fought in the interval.

According to the Daily Telegraph's Tien-tsin correspondent, a Japanese forward movement has already commenced in spite of the rainy season.

The Daily Telegraph's Tokyo correspondent gives an interesting idea of the situation from a correspondent who is said to be in a good position to know the actual facts. This correspondent says that the principal Russian depot is at Gushan Pass, whence many light railways are being constructed northward to facilitate retreat.

Lieut. Gen. Linevich, bewildered by the strategy of the Japanese, is making repeated reconnaissance and throwing out innumerable scouts. Nevertheless, at the present moment, the correspondent says, all his army is completely enveloped. The Japanese army has made a circle a hundred miles in circumference around Linevich and has gradually shut him in.

PROMISES TROUBLE FOR PACKING FIRMS.

(BY THE ASSOCIATED PRESS—A.M.)

CHICAGO, June 16.—Proposed indictments against officials of at least five packing firms were said to have been presented to the members of the Federal grand jury today by Dist. Atty. Morrison for consideration. A report was current that the indictments had practically been voted by the jury.

From a dozen to forty indictments were today generally expected as a close to inquiries which have lasted since March, bringing in scores of witnesses and occupying the District At-

torney's office for three months. The charges are conspiracy, violation of the anti-trust laws, perjury, subornation of perjury and intimidation of witnesses. The accused made charges of their own, asserting homes have been robbed by secret-service men searching for evidence.

There has also developed a serious conflict among the packers themselves. On resulting intimations of alleged treachery, the government officials are said to count on producing testimony not obtainable except by someone turning State's evidence.

IMPPLICATED IN CONTRACTS.

(BY THE ASSOCIATED PRESS—A.M.)

PHILADELPHIA, June 15.—During the hearing, it was shown that Insurance Commissioner Durham, the leader of the Republican organization in the city, is a partner in the McNichol firm of city contractors. It was also shown

## PILGRIMAGE TO LUCIN CUT-OFF.

*Los Angeles People View Big Engineering Feat.*

*Salt Lake's Guests Turn Toward Home.*

*Trip Has Been Productive of Big Realty Deals.*

(BY DIRECT WIRE TO THE TIMES.)

SALT LAKE, June 16.—[Exclusive Dispatch.] Today, with a trip to the famous Lucin cut-off, ninety-one miles from this city, the week's visit of Los Angeles people and other Southern Californians with the people of Salt Lake and Utah came to its close. The train bore away to their homes in the Southwest four coachloads of "Our Own." Not more than fifty or sixty of the original 200 are left, and most of the remainder have now south by tomorrow night.

Those who departed last night and tonight and those who will depart tomorrow night or later, until none are left, will carry with them to their homes hearts full of appreciation for the wide-armed welcome they found awaiting them here, and for the practical means that could be employed.

Great things are expected by Salt Lake to one of the great engineering feats of the world. Salt Lake wants new blood and outside capital to help her rid herself and the State of the domination of the Mormon Church in secular affairs and crush out the rank evil of polygamy and shrewdly she has decided that immigration from the outside will do more to further this fair desire than could be employed.

It is estimated that already about \$250,000 of Los Angeles and Southern California money has been interested in Salt Lake realty as a direct result of this interchange of municipal ideas.

WONDERS OF LUCIN CUT-OFF.

Five carloads of visitors and their hosts started at 9 o'clock this morning for the Lucin cut-off, the wonderful rail and bridge thirty-one miles long by which the Southern Pacific and Great Salt Lake, evading seven miles of terrific mountain grade which formerly was the trial and vexation of the whole system.

The Lucin cut-off took two years to build, and cost the Southern Pacific Company between \$2,000,000 and \$3,000,000—nobody outside the officials knows just how much. It is a direct line across the lake and is composed of nine miles of fill and twenty-two miles of trestle, the longest railroad bridge in the world. In crossing it, the train seems to have gone to sea, especially on hazy days, when the outlines of both shores are obliterated and from the car windows the true appearance is of gliding over the surface of an illimitable ocean.

One stretch of one-quarter of a mile of fill took one year to construct, and all but broke the hearts of the engineers. It broke the heads of scores of laborers, broke their backs and mended. All this worry and pain was caused by a quagmire or quicksand bottom, or lack of bottom. Though the water at this point was only a few feet deep, piles 200 feet long went straight down until they disappeared, and others as long as 300 feet were driven in, and fared no better. Engines drawing construction trains would suddenly list, then topple from the superstructure into the lake. Sometimes it happened so quickly that the crew went down under the tumbling locomotives; other times, the suspension of the train, the hands and laborers to drop their work and scurry back over the long trestle-work to land.

On one occasion a car of giant powder blew up on the trestle, killing forty Greeks and tearing out several hundred feet of trestle.

TOOK ON BRASS BAND.

But to return to the party. The train

stopped at Ogden, thirty-seven miles from Salt Lake, and took on a reception committee and a brass band. The cut-off was crossed by noon, and a light lunch of sandwiches and bottled goods was served on board. Then the entire party clambered down to land on the west shore of the lake, and under the ubiquitous leadership of County Auditor Louis Schwarze, did a ring-around-the-rosy act in the ash alkali of that desolate soil, while the band played the latest airs. That ring-around was of noble dimensions, seventy-five feet in diameter and kicking.

A charming incident of the stop on the west shore was an impromptu talk on the features of great Salt Lake, given by James E. Talmage, professor of geology in the University of Utah, and author of "The Great Salt Lake."

After a brief general description of this natural wonder of the West, in which wit and wisdom were pleasingly blended, Dr. Talmage recommended to the members of the party the fine word painting of Prof. Israel C. Russell, professor of geology in the University of Michigan, whose geological researches in these and contiguous parts are of scientific record.

WASHINGTON.

COLON HARBOR BIDS OPENED.

ONLY THREE FIRMS OFFER TO DO THE DREDGING.

Catt of New York Says His Tender Will be a Million Below Those of the North American Dredging Company and Michael J. Dady—No Award Until Wallace's Return.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, June 16.—[Exclusive Dispatch.] Until the arrival here, June 22, of Chief Engineer Wallace of the Panama Canal, no action will be taken by the Canal Commission in regard to the bids opened today for contracts for dredging the harbor of Colon, Panama. There has been much complaint that the time allowed between advertisement for these bids and their opening was too brief to permit contractors to satisfactorily estimate the work, and that the specifications issued were faulty and only recently corrected.

There were three bidders today—George W. Catt of New York, the North American Dredging Company of San Francisco and Michael J. Dady of New York. They submitted bids in aggregate. Estimating from the prices bid for the removal of material by the cubic yard, Catt stated that his bid would cost \$1,000,000 lower than that of either of the other bidders.

Shonta, chairman of the commission, has come to New York. He left instructions that the bids should not be awarded until the return of Wallace. Whether the latter will follow Shonta's advice of calling for new bids is not known.

LOOMIS IS SUSTAINED.

BOWEN TO LEAVE SERVICE.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, June 16.—[Exclusive Dispatch.] Secretary Taft is determined to close tomorrow his investigation of the charges made against the official integrity of Lester K. Bowen. Bowen has not been convinced of any dishonesty on Loomis's part.

Loomis will be promoted, while Bowen, who has displeased the President, will be either dismissed from service, or his resignation requested. There is no reflection on Bowen's integrity.

THOUSANDS WILL NEVER WAKE.

BOSTON, June 16.—The American Board of Foreign Missions has received reports from its African missionaries relating to the peculiar disease known as the "sleeping sickness," which is seriously affecting Central Africa. Probably the kingdom of Uganda, these reports show that there have been 49,000 deaths within the kingdom from the disease. It is believed that the disease is connected with the presence of the tsetse fly, which hitherto has not been supposed to be harmful to man, though fatal to cattle and horses.

PHILADELPHIA, June 16.—Additional arrests are expected as a result of the startling disclosures made yesterday at the hearing in the case of Select Councilman Frank H. Caven, who is under \$250,000 bail on charges of being unlawfully interested in city contracts. Until an early hour today, Mayor Weaver was in conference with two of his legal advisers, ex-Judge Gordon and Joseph A. Auerbach of New York, representing the Committee of Seventy in the city reform organization.

Persistent rumors are in circulation to the effect that the men whose arrest is being considered, if it has not already been decided upon, are State Insurance Commissioner L. W. Durham, State Senator McNichol, former Director of Public Works Peter E. Costello and John W. Hill, whose resignation as chief of the Filtration Bureau was accepted yesterday by Mayor Weaver, immediately after the revelation at the Caven hearing, that the two men who were employed as inspectors in various portions of the filtration works.

Former Secretary of War Root, of the counsel for Mayor Weaver, arrived here this afternoon from New York, and went immediately to the City Hall, where he went into the advisory board of fourteen citizens, headed by Oscar Noll, assistant Commissioner of Highways, tendered his resignation today, and it was accepted by the Mayor. Noll had been under suspicion since the beginning of the gas-leak fight.

The Mayor's advisers board was in session in the executive office when Mr. Root arrived. Wayne MacVeigh was admitted to the conference shortly after Root's arrival. After the conference had been in progress for about an hour, the Mayor, accompanied by Messrs. Root and MacVeigh, emerged from his office. They positively declined to answer questions in regard to the meeting.

Director Potter today issued an order to the police which compels them to appear before the assessors and have stricken from the lists of voters any names which in their judgment should not be in such lists.

IMPPLICATED IN CONTRACTS.

(BY THE ASSOCIATED PRESS—A.M.)

PHILADELPHIA, June 15.—During the hearing, it was shown that Insurance Commissioner Durham, the leader of the Republican organization in the city, is a partner in the McNichol firm of city contractors. It was also shown

stopped at Ogden, thirty-seven miles from Salt Lake, and took on a reception committee and a brass band. The cut-off was crossed by noon, and a light lunch of sandwiches and bottled goods was served on board. Then the entire party clambered down to land on the west shore of the lake, and under the ubiquitous leadership of County Auditor Louis Schwarze, did a ring-around-the-rosy act in the ash alkali of that desolate soil, while the band played the latest airs. That ring-around was of noble dimensions, seventy-five feet in diameter and kicking.

A charming incident of the stop on the west shore was an impromptu talk on the features of great Salt Lake, given by James E. Talmage, professor of geology in the University of Utah, and author of "The Great Salt Lake."

After a brief general description of this natural wonder of the West, in which wit and wisdom were pleasingly blended, Dr. Talmage recommended to the members of the party the fine word painting of Prof. Israel C. Russell, professor of geology in the University of Michigan, whose geological researches in these and contiguous parts are of scientific record.

WASHINGTON.

COLON HARBOR BIDS OPENED.

ONLY THREE FIRMS OFFER TO DO THE DREDGING.

Catt of New York Says His Tender Will be a Million Below Those of the North American Dredging Company and Michael J. Dady—No Award Until Wallace's Return.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, June 16.—[Exclusive Dispatch.] Until the arrival here, June 22, of Chief Engineer Wallace of the Panama Canal, no action will be taken by the Canal Commission in regard to the bids opened today for contracts for dredging the harbor of Colon, Panama. There has been much complaint that the time allowed between advertisement for these bids and their opening was too brief to permit contractors to satisfactorily estimate the work, and that the specifications issued were faulty and only recently corrected.

There were three bidders today—George W. Catt of New York, the North American Dredging Company of San Francisco and Michael J. Dady of New York. They submitted bids in aggregate. Estimating from the prices bid for the removal of material by the cubic yard, Catt stated that his bid would cost \$1,000,000 lower than that of either of the other bidders.

Shonta, chairman of the commission, has come to New York. He left instructions that the bids should not be awarded until the return of Wallace. Whether the latter will follow Shonta's advice of calling for new bids is not known.

LOOMIS IS SUSTAINED.

BOWEN TO LEAVE SERVICE.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, June 16.—[Exclusive Dispatch.] Secretary Taft is determined to close tomorrow his investigation of the charges made against the official integrity of Lester K. Bowen. Bowen has not been convinced of any dishonesty on Loomis's part.

Loomis will be promoted, while Bowen, who has displeased the President, will be either dismissed from service, or his resignation requested. There is no reflection on Bowen's integrity.

THOUSANDS WILL NEVER WAKE.

BOSTON, June 16.—The American Board of Foreign Missions has received reports from its African missionaries relating to the peculiar disease known as the "sleeping sickness," which is seriously affecting Central Africa. Probably the kingdom of Uganda, these reports show that there have been 49,000 deaths within the kingdom from the disease. It is believed that the disease is connected with the presence of the tsetse fly, which hitherto has not been supposed to be harmful to man, though fatal to cattle and horses.

## RUSSIA FEARS CHOLERA.

Death Occurring Daily at Sosnovice and Suspected Cases are Reported at Tula.

(BY THE ASSOCIATED PRESS—A.M.)

ST. PETERSBURG, June 16.—[By Atlantic Cable.] The anxiety caused by an epidemic of cholera is growing. A dispatch from Sosnovice, Poland, reports that deaths from cholera are occurring daily there, and three suspected cases are reported at Tula. The authorities of both these cities have ordered anti-cholera inoculations in the infected regions, but the warm, moist weather prevailing is favorable to the spread of the disease.

COME BACK MINUS FORTUNES.

SAN FRANCISCO, June 16.—On the steamer Newport, arriving yesterday from Central America, were twenty men who are content to delve and dig for fortunes in the United States. They left here some months ago in response to a call to go to Salinas Cruz, Costa Rica, where the prospects were said to be excellent for sudden wealth. Coffee forests were awaiting their coming, and the harvest was to be theirs, according to the advertisements of the Pan-American Land and Improvement Company, and the deluded Americans hastened down the coast.

PURE WATER FOR PANAMA BOON.

COLON, June 16.—The demand for ordinary laborers for work upon the aqueduct at Panama and Colon is constantly increasing and hopes are entertained that the inhabitants will soon obtain pure water. The employees of the canal at Cristobal are preparing to celebrate the Fourth of July in an appropriate manner. The Panamanian officials have been invited to take part in the celebration.

BOY STEALS HORSE.

SALINAS, June 16.—Albert Bonnell, a fourteen-year-old boy who was arrested at Jolon for horse stealing, has acknowledged his guilt. He will be sent to the reform school.

ADMIRAL WATSON IN LONDON.

LONDON, June 16.—Rear-Admiral John C. Watson, U.S.N., retired, who has been investigating for the Navy Department the physical-culture methods of European navies, has arrived here, having concluded his mission. Rear-Admiral Charles O'Neill, U.S.N., retired, who is on a similar mission as to the shipbuilding facilities of foreign governments, is still on the continent, but expects to conclude his work shortly.

TROUBLE WITH TENANT.

A warrant issued yesterday for F. A. King, agent of a building at No. 1400 Temple street, on the charge of battering a woman tenant, Mrs. Rebecca Carroo, says that King went yesterday to the premises to serve a paper on Carroo, and became convinced that he was hiding in one of the rooms. The fact was, however, that King was dressing in that particular room. When King attempted to force his way in, Mrs. Carroo barred his way, and she says she was struck on the wrist by King. When he succeeded in wrenching open the door, he was confronted by the woman, Miss Helen Huber, who threatened to kill him with an up-lifted chair. Mr. King tells a vastly different story. He says he went to the place to serve the Carroo notice to pay rent or get out. Mrs. Carroo slapped him in the face, and he merely grabbed her wrist to keep her from further slapping him.

EXCLUSIVE PATENT RIGHTS IN CARRIAGE BUILDING.

Are controlled by us in certain territories in certain inventions. These advantages, coupled with our judgment and experience in carriage and wagon buying and building, enable us to sell you vehicles at very near manufacturer's cost and still make a reasonable profit. WEAK KIDNEYS

Cause More Suffering and Deaths than All Other Diseases Combined

If the kidneys are out of order the whole system is bound to suffer. Headache, backache, rheumatic pains and swellings, torpid bowels, constipation, indigestion, nervousness, depression, sleeplessness, urinary troubles, malaria, feverishness, yawning, cloudy urine, edema in urine, etc. If you have any of these, all indicate that your kidneys have been diseased for some time. And if you do not properly treat them, you will surely find that diabetes, uric acid and blood poison, with convulsions, will surely follow.

Made Healthy by Safe Cure

Warner's Safe Cure is absolutely the only complete, permanent, safe, home cure for a disease of the kidneys, liver, bladder and blood. It soothes inflammation, repairs the delicate tissues and restores energy and vigor to the whole body. Safe Cure is made entirely of herbs, contains no harmful drugs and is pleasant to take. Prescribed by doctors and used successfully in the leading hospitals of the world. Write for full particulars. Medical booklet free. Address Warner's Safe Cure Co., Rochester, N. Y.

CLARK PHALANX GATHERS HERE.

AND BANCROFT ON THE GROUND FOR HARRIMAN.

Salt Lake People to Continue Consultation for Probable Fight for What They Claim—Traffic Agents Have Pleasant Outing—Santa Fe Hospital Nears Completion.

Senator Clark arrived in Los Angeles late last night from Salt Lake City. With him were W. H. Bancroft, vice-president and general manager of the Oregon Short Line, first vice-president of the Salt Lake Railroad, and Harriman's personal representative on the board of directors, Second Vice-President Ross J. Clark, Treasurer Ferd K. Bule and other officials of the road.

General Manager Wells of the Salt Lake said yesterday that he could not state what is the object of the visit of Senator Clark and Mr. Bancroft. "All we know," he said, "is that they have been in consultation in Salt Lake City during the past week. Mr. Kern, as you know, is already here and the consultations will probably be continued."

General Freight and Passenger Agent Gillett was sent for yesterday at noon and he went north to meet the special which brought in the Senator's party. They arrived at the Salt Lake station shortly after 10 o'clock last night. All their movements will be watched with much interest as long as they are here. The Salt Lake Road for those that built it out with the interlopers," will be the cry of the anti-Harriman faction. The Santa Fe railroad men also have secret sympathies with them.

TRAFFIC AGENTS' OUTING. One of the pleasantest outings for many months was that of District Three of the Pacific Coast Association of Traffic Agents. A dinner at the Hotel Redondo, followed by a ball, were the features. The evening's pleasure went off without a hitch, thanks to the arrangements made by N. R. Martin, chairman, and T. F. Fitzgerald, secretary of the district.

A special car was chartered and about sixty railroad men with their wives and friends went out to the beach. The car ride gave them a fine appetite to enjoy the dinner prepared by the landlady of the Hotel Redondo. The dancing lasted for three hours, when they found they had enough and were ready for the ride back to town.

SANTA FE HOSPITAL. August 1 has been set as the date for the opening of the Santa Fe hospital. Rapid progress has been made on the new building in Boyle Heights. Under the direction of Mr. Mohr of the engineering department of the Santa Fe Railroad, the iron workers have almost completed their share of the building and the plasterers are at work. No arrangements have been made for dedication. While it is assured that brief ceremonies will be held, there is no intention of making them at all elaborate. Work is going on smoothly now, and according to the plans made in the beginning. It will be remembered that a picture, showing how the hospital will look when finished, appeared in The Times several months ago.

FOR THE FOURTH. Fourth of July preparations are al-

SIDE TALKS BY THE OFFICE BOY Did you ever drive out to Hollywood? Say, those guys out that way have certainly got things going. I didn't drive out myself, but went on the car. I like the cars better than driving. I have to. That Hollywood place is all to the good. It makes me think of our store, because, don't you see, one is SILVERWOOD and the other is HOLLYWOOD. They've both got good timber in 'em, and you can bet there's a lot of Silverwood hats used out that way. Most of the Hollywood men are very good looking, and I think it's partly on account of the hats, but the boss told me to cut out that sort of talk because it was too personal. So I'll have to let up.

Long Beach is making the biggest splash. TIES AND SPIKES. F. W. Thompson, general western agent at San Francisco for the Rock Island, is in Los Angeles. Four conferences during the next week are occasions for special rates of a fare and a third for the round trip, as announced by the passenger department of the Santa Fe yesterday. These are the Epworth League conference at Colusa, the California State Normal School alumni at San Jose, the Grand Lodge, United Ancient Order of Druids, at Stockton, and the Pacific Coast Hardware and Metal Dealers at Del Monte. One week from today the Santa Fe will start running the summer week end special to San Diego. It leaves Los Angeles at 5:45 Saturday afternoon, returning at 10 on Sunday night. S. F. Booth, general agent of the road at San Francisco, is in town yesterday. With him was W. H. Murray, chief clerk to E. L. Louma, general passenger agent of the road at Omaha. Mr. Murray has been attending the meeting of the Western Passenger Association at Portland. He has come down here to look around and get in touch with the local situation.

## Mid-Season Millinery

Money-Making Marvels For the Purchaser

Millinery stocks about town are depleted at this season, and ours would be for the fact that each day brings us choice shipments from the eastern style centers—fashionable tid-bits snapped up by our buying organization for various reasons, some on account of newness of model and color scheme, others on account of lowness of price and extreme value; all possessing some particular mark of merit which makes the ownership most desirable. In addition to the new things for today, we feature many items which have been greatly reduced, the combination making a whole which will surely prove tempting to any woman with a millinery want.

60 New Trimmed Hats

Specially Priced at \$4.98 and \$5.98

New ideas in trimmed hats, made from laces, chiffons and straws; Maxine Elliott, Corday and turban styles; trimmed with high-class flowers and foliage; beautiful color combinations; styles and models not heretofore shown. Special values for today at \$4.98 and \$5.98.

## TRAP SPRINGS, VALE UBILLOS.

End of a Desperado at the Yuma Penitentiary.

Slayer of Fellow-convict is Executed.

Career of Dark Deeds Ends at the Gallows.

(BY DIRECT WIRE TO THE TIMES)

YUMA (Ariz.), June 16.—(Exclusive Dispatch.) Martin Ubbilos was hanged today for the murder of Simon Aldrite. The trap was sprung promptly at 11 a.m. Ubbilos died without a struggle. The execution was witnessed by at least 100 people, who were invited to the gallows by the Sheriff. Ubbilos was a desperado of the meanest type and a Mexican of the lowest order, having only the intelligence of a brute whose only thought when offended was to kill the offender. It is said that while in Mexico a comrade insulted him in some manner, and that, flying into terrible rage, Ubbilos struck his head with a large rock. Then picking up the senseless form he held it over his head and hurled it to the ground. Afterward he came to the United States, where he became a mining prospector in the Bradshaw Mountains, Yavapai county. In the spring of the year 1926 two Mexican friends used his bureau for a day or so without knowledge. This seemed to anger him beyond reason. Taking his Winchester rifle, he lay in wait for the men to pass a certain point on the trail and there he shot them to death.

For this crime he was sentenced to be hanged, but before the time set for his execution arrived Gov. Murphy commuted the sentence to one of life imprisonment, and he was removed to the penitentiary at Yuma.

Here he became a ringleader of the most vicious and hardened men in that institution and was the prime mover in a revolt that occurred a year or so after his incarceration.

One of his cell mates was Simon Aldrite, also a life-terminer, with whom he was continually quarreling. The climax was reached one morning when the guard was busy in another part of the yard. Ubbilos enticed Aldrite into their cell and commenced the quarrel again. Aldrite called him a hard name and Ubbilos then began cutting him with a knife he had manufactured for this very purpose.

Aldrite, in his endeavor to escape the knife thrusts, climbed to the top of a tier of bunks, but not before he had been severely cut. He was taken to the hospital, but died there. The last act, was on a high, which severed an artery, from which he bled to death. Ubbilos was brought before Judge Campbell for sentence and when asked if there was legal reason why sentence should not be pronounced upon him, replied that Aldrite should not have said words that had angered him, this being his only excuse. While the judge was delivering the death sentence Ubbilos calmly rolled a cigarette as if the proceedings had no interest for him.

## FASCINATED BY CLODHOPPER.

TUNAWAY, WIFE REFUSES TO GIVE UP MESSENGER BOY.

In Love With Male Siren of the Typical Bowery Tough Sort and Unwilling to Go Back to Her Distracted Husband—Both Guilty Ones in Jail.

The indescribable fascination exercised by one of these spitty, snuffing, leaky-nosed, gaping-mouthed, clod-hopper district messenger boys gained such a hold upon young Mrs. T. L. Brown that she has left her husband and is now in jail.

Her deserted husband, a traveling salesman, followed her from San José yesterday, half distracted at her conduct. At his instigation two police officers found the recent young wife living with a messenger boy named Dumold at the Grand Pacific on South Spring street. She refused to leave him.

Mr. Brown went with the officers to the house and implored the woman to come back to him; but she coldly refused, being still under the spell of the aforesaid male siren. It came out that she had given him a \$20 ring that she had stolen from her aunt in San José. The ring was recovered yesterday at the boy's home on Macy street. Both were locked up on suspicion.

The police were greatly exercised over the case and made a great effort to reconcile the wife to her husband. They had a long conference in Capt. Auble's office. The woman was taken back to jail, but it is almost assured that she will go back to her husband, soon as she can tear this captivating vision from her heart.

## WOULD HE HAVE USED THE GUN?

SUSPECTED THIEF TRIES TO DRAW A REVOLVER.

Caught in Loaded Box Car, Man Who Says He is Night Watchman Attacks a Policeman and is Disarmed and Handcuffed Only After Desperate Fight.

Patrolman Block and a supposed box-car thief fought a desperate encounter for the possession of a revolver last night. The policeman was victorious only after a long and hard struggle, in which both men were badly used up.

Block observed a man entering a hay car at Third and Alameda streets, and ordered him out. The supposed thief immediately obeyed, but he quickly showed fight and attempted to whip out a revolver from his pocket. Block grasped the weapon, and the men rolled over on the ground, fighting furiously. Finally the policeman pinned his antagonist down and handcuffed him.

At the Police Station the prisoner gave his name as Hurt Wiley, and said he was a private watchman employed by the Alpine Farm and Dairy Company. As he could not satisfactorily

explain his presence in the box car and possession of the pistol, he was charged with carrying concealed a deadly weapon.

## STILL DOING BUSINESS.

Hold-up Men Continue at Their Nightly Work—Three Victims Report Losses.

Hold-up men were active early this morning. Two cases in which three men were the victims were reported to the police at midnight. L. Briner of No. 536 East Eleventh street and A. Gloom of No. 822 Clanton street were sitting on the curb at Twelfth street and Stanford avenue about 1 a.m. when a short man appeared, drew a gun and ordered "hands up." Though the victims were each larger than the robber, they readily obeyed with the order and assisted the highwaymen by handing over their valuables. Briner says he lost \$100 and a watch, and Gloom claims to have been fleeced for \$5.

Walter Nicholson, a gardener of No. 692 Sunset boulevard, reported that he ran about of two hold-up men after midnight near his home. One of the men displayed a star. According to Nicholson's story the robbers secured \$15 and a knife, but they overlooked a number of checks in their victim's pocket.

## ASSAULTED BY RIVAL.

Mexican Beaten With Iron Bar by Unknown Fellow-countryman and Skull Fractured.

Gabriel Valasquez, a Mexican, lies in the Receiving Hospital with a fractured skull which resulted from a fight with another Mexican for the smiles of a Sonoratown señorita.

Valasquez was found lying in a pool of blood at 11 o'clock last night by Patrolman Banks. The Mexican could scarcely talk, but he managed to explain that he had called on an acquaintance of the gentler sex and found her bestowing smiles upon a stranger. Without ceremony the unknown attacked him with an iron bar and beat him almost into insensibility.

When he reached the crucial point in his story he seemed to be once more acting out the scene in detail, for he rose from his chair, went through the motion that he claimed, Bagby made with the pistol in his pocket, showed how he stopped and started on looking back over his shoulder at the men who were following him, repeated the threatening language which he claimed the dead men made, and exclaimed:

"I believed I was going to be shot down then and there, and I wheeled and began shooting. I shot Bagby first."

Occasionally in the witness's testimony there was a hint of the twelve years' feud that has existed between the Burtons and the Walkers. The witness at no time lost control of himself, but told his story in detail, and then stood by when the cross-examined.

At the suggestion of his attorney, E. J. Emmmons, Walker buckled on his holster and six-shooter, and showed how he acted on the fatal day. Sensational testimony was the order of the day. It was hinted that Walker had planned to hold up the Kernville stage last March on which Burton and Bagby were passengers.

Joe Gonzales of Kernville testified that Dave Burton about two years ago offered him \$200 to kill Newt Walker.

## MRS. BOTKIN NERVOUS.

FEARS FOR HER SANITY.

(BY DIRECT WIRE TO THE TIMES.) SAN FRANCISCO, June 16.—(Exclusive Dispatch.) Three days ago Foreman Andrews of the grand jury ordered Mrs. Cordelia Botkin, the convicted murderer, to be removed from the comfortable room in the branch County Jail which she had occupied for five years and transferred to an ordinary cell. Andrews declared that she had been given special privileges, and that these must cease.

Mrs. Botkin was twice convicted of murder in sending poisoned candy to Mrs. Dunnington of Dover, Del., and she is now awaiting the result of an appeal to the Supreme Court. She furnished an empty room in the jail and cooked most of her own food. She has not eaten anything since her removal, three days ago, and has not slept, and the jail physician fears the woman will go insane. Mrs. Botkin says the quiet of her room has made the noise in the jail cell intolerable.

## DOUBLE MURDER DONE.

CHESTER MAKER'S BODY FOUND.

(BY THE ASSOCIATED PRESS—A.M.) STOCKTON, June 16.—Sheriff Norman of Amador county telegraphed Sheriff Aubrey this morning that the body of Chester Maker, the grandson of the murdered Mrs. George Williams, was found this morning about half a mile up on the hill above the residence of Mrs. Williams, near Lancha Plana. The head had been crushed in, and it was apparent that the boy was murdered, doubtlessly by the same man or men who murdered his aged grandmother last Sunday night.

There had been some suspicion that the boy had murdered the old lady, but this, of course, makes it plain that a double murder has been committed. There is no clew to the assassins, and so long a time has elapsed between the crime and the discovery, that there is little hope of catching the criminals.

## GREASON ACQUITTED.

MRS. EDWARDS EXONERATES HIM

(BY THE ASSOCIATED PRESS—A.M.) READING (Pa.) June 16.—Samuel Greason, colored, was today acquitted of the murder of John Edwards. Mrs. Kate Edwards, wife of the murdered man, whose testimony convicted Greason over three years ago, today completely exonerated him.

Edwards was murdered nearly four years ago, and Greason was arrested several months later. His death warrant had been issued ten times and his case developed into one of the most remarkable murder trials in the State. Mrs. Edwards, the mother of Greason's child, is under sentence of death and it is understood that the Governor will fix the date for her execution within a short time. It was supposed several months ago so that she could be used as a witness at Greason's trial.

## PLAYED A SURE THING.

STILL MISSES HIS MONEY.

(BY THE ASSOCIATED PRESS—A.M.) CHICAGO, June 16.—John Monroe has been arrested on complaint of P. H. Grear, a wealthy mine owner of Spokane, Wash.

Grear said Monroe and two other men took him to an alleged poolroom and told him they had arranged with the clerk of the bookmaker to withhold the name of the winning horse in a race until Grear could bet \$100 on that horse. Grear placed \$1200 on the horse.

A short time later, Monroe "exposed" himself and the bookmaker and his

clerk also left the room. They did not return and Grear notified the police. Monroe's companions have not been found.

## NERVE GOES ON GALLOWES.

QUITS JOKING, BEGS MERCY.

(BY THE ASSOCIATED PRESS—A.M.) PEORIA (Ill.) June 16.—Otis Botts, 21 years old, was hung in the county jail here today for the murder of his wife, January last. Botts spent the night laughing and joking and telling lewd stories. He invited everybody to

attend his funeral. His mother wanted to attend the execution but he said: "Don't do it; you'll make me lose my nerve."

When he faced the crowd the air of bravado which had marked his career up to this time deserted him and he broke down and wept. He said: "For all the sins I have committed against the laws of God I'm sorry and may God have mercy on my soul."

## CRIMINAL BRIEFS.

DESPERATE ATTEMPT TO ESCAPE.

(BY THE ASSOCIATED PRESS—A.M.) SAN FRANCISCO, June 16.—James

# Lowman's Record-Breaking Sale

Months ago we contracted with prominent wholesale tailors in New York for a tremendous stock of men's high-grade two-piece suits—the biggest and best stock we ever attempted to handle in one season.

Now we've got the goods on our hands, the next thing is to dispose of them, regardless of profit.

Lowman Suits fit in every little detail

\$4.75

For your choice of our genuine Panama hats worth up to \$10.00 each.

## Entire Stock of Men's Summer Suits At Startling Reductions

These suits include the latest styles in double and single-breasted, effects—blue serges and fancy worsteds in nobby gray and brown patterns—light, cool, comfortable. Full of style and satisfaction.

Take it altogether, it's the handsomest men's two-piece suits ever stacked up clothing counters in Los Angeles. This is a suit in the lot that any man would not want to wear.

\$9.50

For your choice of all the suits now marked \$12.50 to \$15.00. Hundreds to pick from.

\$12.50

For your pick of the bunch now marked \$16.50 to \$18.00. Some beauties in this lot.

\$16.50

For your choice of the hand-made two-piece regularly worth from \$25.

## SALE BEGINS THIS MORNING

Get here first and secure best choice of the lot. It's safe to say there'll be some lively bunches these bargains, for the men of Los Angeles have learned that when Lowman talks about a sale and "reduced prices" there's something genuine worth investigating.

Every suit guaranteed. Your money back if anybody can match Lowman's.

**Lowman & Co.**

**LYON-MCKINNEY-SMITH & CO.**  
652 SOUTH BROADWAY AT SEVENTH ST.

**Officers of the Temescal Water Co.—Central Power Station.**  
The yards with five miles of sidings and, as the company's immense business demanded more space, construction work was continued until objection was raised. The City Fathers were appealed to, but that body acted slowly and the franchise has only just been granted.  
At the time the work was checked the Santa Fe was putting down numerous spurs, switches and cross tracks and there were numerous reports that the company intended to construct large shops in this city.  
As a result of the granting of the franchise for a larger right of way in the vicinity of the present yards the company is making plans for extensive improvements. The capacity of the roundhouse is to be increased by "pits" or stalls for locomotives, and when plans are made for the switching will be done some distance from the city limits instead of within the city as heretofore.  
It is reported that other improvements are to be carried out at once. The freight business, both in cattle and fruit, will be heavier than ever this summer.

**MORE PARK LAND.**  
The Kern County Land Company announced yesterday that its donation of thirty-five acres to the city for a public park, which offer has been heretofore accepted by the board, is increased by two blocks, adding a little more than five acres to the original large acreage in the Reeder tract.  
The company has had the making of this increased donation in contemplation for several weeks, but was unable to come to definite conclusion by reason of the fact that thirteen lots had been sold out of the two blocks in question and it was necessary to repurchase those lots before taking action. The deeds have all been secured now by the company and Superintendent Harry Jastro gives formal notice that the entire site will be deeded to the city.

**BAKERSFIELD BRIEFS.**  
Forest L. Alford has been appointed Assistant District Attorney for Kern county. Mr. Alford is a brother of W. H. Alford of the State Board of Equalization. He was formerly a deputy in the District Attorney's office of Tulare county.  
The preliminary examination of Oscar Cheesborough, charged with assault with a deadly weapon on John Whitmore, was held before Justice Millard as the testimony of both was conflicting as well as interesting and as there were no other eye-witnesses to the alleged affray, which took place at the bottom of the shaft of the Magpie mine at Randeburg, the case was dismissed.  
The Kern Board of School Trustees has let a contract for an addition to the present building, which addition is to be erected in the vacation months. C. J. Lindgren was given the contract for \$12,350.

**SAN DIEGO.**  
**MOVING HEAVY MACHINERY.**  
SAN DIEGO, June 16.—The first consignment of machinery for the Juarez mines, just below the line in Lower California, left here Monday, drawn by twelve four-horse teams.  
The distance is ninety-six miles and eight days will be occupied with the trip. The transportation is of about 140 tons. The mines are to be reopened by Los Angeles capital.

**BAY TOWN DRIFT.**  
Thomas Tighe has asked Judge Conklin of the Superior Court that suspension of sentence in the case of his son John Tighe be revoked and that he deal with the lad as he thinks best. A short time ago Tighe and three others boys were arrested for breaking into a beer-bottling house.  
In the Superior Court this morning Tom McGee was sentenced to ten years in the penitentiary at San Quentin for highway robbery. McGee was arrested and convicted of the crime several months ago, but has been out on parole. One of the provisions was that he should keep sober, but he has been under arrest twice since that time for intoxication.  
Although firm in the belief that he should not be asked to do so, Prof. Davidson, City Superintendent of Schools, has decided to bring suit in the courts to determine whether such

**SWIMMING, FANCY DIVING, SAILING RACES,** decorated lantern parade, boys' paddling race of iron clads, and other events.

**CLAREMONT.**  
**IVY PLANTING BY SENIORS.**  
CLAREMONT, June 16.—This morning the graduating class appeared for the last time in the regular chapel exercises. The chapel and senior section was artistically decorated by the sophomore class with ivy. The seniors marched in, robed in their mortar boards and gowns.  
President Gates made a short address and then after the singing of the Ivy Day song, composed by Miss Florence Barnes of the senior class, they marched out, while the students sang "Auld Lang Syne."  
The ivy planting took place at the south end of Pearson's Science Hall. Some five hundred students and friends were gathered to witness the event. After a short address by Warren C. Eberle, class president, Arthur McCormick, and Frank R. Beaver planted the vine.

**MUSICAL EVENT.**  
The Choral Union Club of Pomona College of eighty voices will render Haydn's "Creation" Saturday evening the 24th inst. Prof. F. A. Bacon will direct the chorus and full orchestral accompaniment. The soloists who will assist are Miss Isabel Curl, soprano; J. P. Paulin, tenor, and H. S. Williams.

**Bank Stock For Sale**  
AT ONLY \$5 PER SHARE  
Plan to Secure 1000 Stockholders.  
No One Allowed to Purchase More Than \$500 of Stock.  
The people of Los Angeles can now buy bank stock at only \$5 per share. No one will be allowed to purchase more than \$500 of stock. Capital is to be increased to \$500,000, making bank of a thousand small stockholders, thereby becoming the people's bank of Los Angeles. The Consolidated Bank of Los Angeles has decided to place its stock with the people, believing that in securing a thousand stockholders it will secure a thousand depositors at the same time. Investors can purchase such stock with absolute safety as to perfect security, and realize a handsome profit therefrom, as has been done by the owners of stock in the various other banks of Los Angeles. This is the only opportunity ever offered the general public to buy stock in a Los Angeles bank at \$5 per share. We would rather have 5000 stockholders of \$100 each than 1000 of \$500 each. We want the greatest number of stockholders, as the more stockholders there are the stronger the bank. All stock fully paid up at Five Dollars per share. Purchasers can buy from 1 to 100 shares at \$5 per share, but no one can buy more than \$500 of stock. Subscription books just opened. Purchasers can subscribe for 100 shares and pay for the same in monthly payments of Five Dollars, and receive one share of paid-up stock as each \$5 payment is made. We want the people to become the stockholders in the people's bank of Los Angeles. Call or write for further information. Pamphlets, etc., mailed free on application. CONSOLIDATED BANK, 124 South Broadway, (Ground Floor, Chamber of Commerce Building.) Los Angeles, Cal.

enabled to surmount rapids; a series of ural state, in whole

water passing both over the top and through openings at the bottom, so that a succession of leaps or of zig-sag-darts carries the salmon from the lowermost pool to the stream above the falls. Another interesting model is of a stationary fish wheel. It is placed in the river either in some gorge where the stream is narrow and swift, or on a promontory breaking the flow of the current and so affording favorable conditions for the ascent of the fish. The wheel has netted compartments, and one of these is always in the water. The fish is lifted out of the water, and drops toward the axis of the wheel, where there is a chute along which he slips into the fish box, ashore. The whole operation is marvelously simple, prompt, and effective, and one of those

being a horny salmon grows to the sum of 1000. The whalebone is sawed into plates, of which the edges serve as staves, and are driven on each side of the wheel to twelve feet below the water the round of the whale sustains this wonderful apparatus in nature, and understand it a glance.

**LEATHERS FROM SKIN**

the biologists. The other two are seamen. The Grampus was expressly designed for the expedition and will service having been to carry on important investigations into the marine fisheries of the Hawaiian Islands and the Grampus model should show how to elaborate scientific equipment. The Fish Hawk is employed in fish-culture work on the Atlantic Coast, and is likewise equipped with specialized apparatus. Complementary to these ship models is that of the Fish Commission railroad car, which transports live fish in tanks, and enables the hatching work to be carried off while the train is in motion.

**CRAPPIES ENJOY EXPOSITION.**  
In the space round which these and their most interesting models are arranged is a large pond, in which is a large variety assortment of fish and terrapins. Amongst the former are bluegill, carp and buffalo fish, portly fellows whose graceful movements can be watched at close quarters. The terrapins, of several kinds, are distinguished by their plump bodies and short, stubby snouts. They are found in the coastal stream south of New England and in the salt marshes from Massachusetts to Texas. The variety most popular amongst the epicures is the diamondback, sometimes worth in the market \$100 per dozen. This aristocrat among terrapins may be seen swimming about at a trotting pace on the water, in the snapping turtle, clinging to the water spout, affords us an amusing study of physiognomy.

**FLORIDA SPONGE INDUSTRY.**  
One of the most striking exhibits is a complete illustration of the Florida fishing industry. The models here tell the story most clearly. We the fishing vessels, each of which carries from two to six boats. These

While another surger the sea-  
son by means of a glass-bottomed  
net known as a "water glass." This  
net has one handle which the fish-  
er holds as he manipulates a long pole  
with a three-pronged fork at the end  
of it. When a sponge is sighted, it is  
drawn to the bottom and drawn  
to the surface.

Next we see the fresh sponges being  
cleaned by exposure to the air. After a  
few days the freshy got sponges are  
put out, for the sponge of commerce  
is really the skeleton of the animal.  
Finally we are introduced to the  
sponges which are packed and ready for  
market. The kinds recognized by  
trade are five in number—sheep-  
skin, yellow, velvet, grass, and growth.  
The last is the choicest and worth  
15 cents per pound wholesale to the  
fisherman. It is the sponge we use  
for rough domestic purposes. The  
others are the finer quality of all,  
the leading toilet sponge, and sell  
at \$2.75 per pound wholesale. The  
sea sponge fishery yields annually at  
least 100,000 pounds of all kinds, the  
value of which ranges between \$50,000  
and \$60,000.

**MOOTHER-OF-PEARL SHELLS.**

Another valuable object lesson deals  
with the pearl-button industry and the  
principal marine and fresh-water shells  
used in producing this article.  
Mothballs. We see the three varieties  
of the abalone—the green, the blue  
and the red—these being the predomi-  
nant in the market. The mother-  
of-pearl oyster shell is also shown.  
The fresh-water mussel shells of  
the Mississippi, which give us the  
pearls from their buttons in common  
with the pearl-shell from the oyster

# THE CITY IN BRIEF.

## NEWS AND BUSINESS.

### W.C.T.U. Convention.

An all-day meeting of the W.C.T.U. Federation will be held on Wednesday in Irvine Chapel, on Avenue 23, reached by the Griffith-avenue car.

### Sodality to Give Play.

The Young Ladies' Sodality of St. Joseph's parish will present a drama entitled "The Last Days of the Blessed Virgin," next Tuesday evening in Dobinson Hall.

### Struck by Car.

Samuel Lane, a machinist employed at Stansbury's grading camp, was struck by a Spring-street car near the Orpheum last night as he was attempting to cross the tracks. He was hurled aside and sustained a broken rib and numerous cuts and bruises.

### Thinks His Son Lost.

John A. Pultz of this city has some reason for believing that his son was one of the seven men reported lost by the dispatches of yesterday morning. The report is that seven miners en route from the Vancouver coast to Lorne Creek were drowned near Skeena Canyon by the capsizing of their boat.

### Freight-carrying Case.

General Manager A. D. Schindler of the Pacific Electric Railway Company, S. R. McLennan and Motorman H. A. Tourville of the Interurban surrendered themselves to the Police Court in the test case on the freight-carrying franchise. They were represented by Attorney Albert C. Crutcher, and asked time to plead. They will plead Monday.

### Blows for Health Officer.

Health Officer J. A. Traynor didn't find genuine hospital in the home of Ralph Boudeman on Sunset boulevard when he went to investigate the condition of several cows owned by Boudeman. Sharp words led to blows and Traynor secured a warrant for Boudeman's arrest on a charge of battery. The case will be investigated in Police Court today.

### St. Vincent's Closing Events.

St. Vincent's College begins its commencement week tomorrow morning at 10:30 o'clock, with a solemn mass of thanksgiving in the Church of St. Vincent de Paul, attended by the student body and faculty. A sermon will be delivered by Very Rev. J. S. Glass, C.M., D.D. On Monday evening at 8:30 o'clock, in the Father Meyer Memorial Hall, will occur the commencement exercises. The college play, "The Bell," will be presented on Tuesday evening in the Father Meyer Hall.

### "One-time Notices."

There will be many of these in the first and second columns of the first "Liner" sheet of tomorrow's Times. Merchants and other large advertisers are beginning to appreciate the value of this new classification as a medium for directing public attention to large display advertisements in other parts of the paper. By pointing out and briefly describing their advertisements, giving part and page where they appear, the reader's attention is at once enlisted.

### Elevator Boy's Knife.

L. Parker's tender corns have placed him in a fair way to go to State's prison. Parker is an elevator boy in the Copps Block. Yesterday afternoon, a man named Mike Durkin rode up in his car and stepped all over his feet. When he wanted to come down again, Parker refused to let him ride. Durkin had to walk from the fourth floor, to his great wrath. When he got down he hunted up the elevator boy and they had violent trouble. Parker said that Durkin stabbed the man with the feet in the shoulder with a penknife.

### Picnic and Free Barbecue.

The Cudahy Packing Company Employees' Athletic Association will give its second annual picnic and barbecue tomorrow at Verdugo Park. A program of field sports, games and dancing has been arranged, and prizes will be awarded. The association has decided this year to invite the public. The barbecue and all the "trimmings" will be free, but a small charge for the only requirement. The Cudahy Company furnishes the meats for the barbecue, and 400 pounds will be prepared. Trains leave for Verdugo Park at 9:30 and 11:30 a.m.

### Mr. Gurley at Home.

Acting-Secretary Gurley, of the Chamber of Commerce, arrived home from Salt Lake yesterday, and after expatiating briefly on one of the times of his life, plunged briskly into the mass of routine work which had collected during his absence. One of the puzzles Mr. Gurley found was the National Editorial Association's train. The editors have signified their intention of coming to Los Angeles today, but up to a late hour last night the Chamber of Commerce had received no news as to when they expected to arrive.

### Hawley Suspended.

Police Detective Hawley was suspended from duty yesterday, pending the investigation of charges preferred by Louie Ebinger, proprietor of the Turnverein Restaurant, he claims that Mr. Hawley was under the influence of liquor in his place, Wednesday night. There are details which will be brought out at a hearing by the Police Commission. Hawley is one of the oldest detectives on the force and his good record will certainly intercede for him. He has done excellent and faithful service for the Police Department covering a period of many years.

## BREVITIES.

The volume of "Liners" in the Sunday Times has become so great that it is found necessary to ask patrons to get their Sunday advertisements in earlier; especially Sunday real estate announcements, which in order to be printed must be in the office not later than 10 o'clock Saturday nights. The printing of all real estate matter, including advertisements, in a part by itself on Sundays involves somewhat slower press work, making it essential, in order to get the paper out on time, to stop receiving real estate ads at 10 o'clock Saturday nights. Dealers will confer a favor on The Times office if they will turn in Sunday copy on Fridays, when possible, or at least a part of it, and the balance early on Saturdays. Sunday "Want" ads will still be received by phone and over the counter until 11 o'clock Saturday nights.

The ladies' rest room on the top floor of the new wing of The Times' Building is open daily from 9 to 5. Ladies from town or country will find this a convenient place to write, rest or read. Stationery provided for correspondence. Both phones available. Take elevator to business office and ask for a card.

John Hinch has reopened his restaurant and will be glad to see his friends and patrons at the same address, 214 N. Main.

Best meals in city, 25c, at Hart Bros. Prop.

There are undelivered telegrams at the office of the Western Union Telegraph Company for William Gilman, Fred Noble, Hon. T. C. Smith, Fred Thornburg, Mrs. H. F. Barker, Miss Valerie Hucksaby, F. A. Rowley, Theodore Goethe, George Panagiotis, H. N. Savage, J. F. Dodson, George Olmsted, Miss W. Willie Mowbray, Clay Outcalt, C. J. Dixon, Miss Anna Coldwell, C. L. Simmons.

## PERSONAL.

Lewis E. Aubury, State Minerologist, is at the Nadeau.

J. V. Smale, mining man of Mexico, registered at the Van Nuys yesterday.

R. Naef of Zurich and Otto Deutsch of Neustadt, European tourists, are at the Angelus.

P. Kirch of Berlin, German traveler on a tour of the world, is staying at the Van Nuys while here.

F. G. Hill and family of Cananea, are arrivals at the Nadeau. Mr. Hill is connected with the Cananea copper interests.

S. F. Booth of San Francisco and W. H. Murray of Omaha, Union Pacific agents, are in the city on a business trip, and are staying at the Angelus.

## BIRTHS, DEATHS, MARRIAGES.

**Los Angeles Quite Sure of Huge Convention.**

**Promised National Meet of Christian Endeavorers.**

**Twenty-five States Instruct for Angel City.**

**Los Angeles is cutting a wide swath in the field of national conventions. The latest tip is that this city is almost certain to be the meeting place in 1907 of the greatest delegate body in the world—the national convention of the Young People's Society of Christian Endeavor.**

**Los Angeles Endeavorers have received messages from twenty-five State conventions which have passed resolutions in favor of holding the 1907 meeting here. They have also received the personal assurance of nearly an equal number of State presidents that they will use their influence to bring the great gathering to this city.**

**On the 28th inst. a company of energetic and enthusiastic Angelites will start for the national convention to be held in Baltimore, Md., from July 7 to 14. They are all Los Angeles boomers, and will go with official invitations from the Merchants' and Manufacturers' Association, the Chamber of Commerce, the city, county and State Endeavor societies, and a general invitation from the churches of the city.**

**They will present an imposing array of attractions for the Endeavorers, and in this list will be the great Temple Auditorium, which will afford ample provision for the handling of such a great gathering.**

**The claims of this city will be presented by E. C. Lyon, of the Lyon, McKinley, Smith Company, who represents the Promotion Committee composed of himself, Paul C. Brown and Francis D. R. Moore. He will be assisted by the other Los Angeles delegates to Baltimore.**

**It is said that the national convention of the Endeavorers is the largest delegate gathering known in the world. At the meeting in New York 25,000 delegates were registered. The meeting in San Francisco, eight years ago, brought to that city a company of 25,000 people, and the society has grown wonderfully since that time.**

**It is estimated that this meeting would bring to Los Angeles fully 25,000 delegates, best of whom are young people who would be attracted by the excursion rates and general interest in this country.**

**The Los Angeles delegates will leave this city on the 28th inst. and will join the San Francisco delegates at Hartford, Conn., on the 30th inst. They will then travel over the Santa Fe to Kansas City, where they will stop over Sunday, July 2, and then proceed to Chicago. From that point they go directly by way of the Baltimore and Ohio to Baltimore.**

**The California State Convention will meet next Wednesday in Santa Barbara, lasting from the 28th to the 31st inst. A company of Los Angeles Endeavorers will leave by special train at 1:30 p.m. Wednesday, and will arrive over the Santa Fe to Kansas City, where they will stop over Sunday, July 2, and then proceed to Chicago. From that point they go directly by way of the Baltimore and Ohio to Baltimore.**

**Among the prominent speakers at the State convention will be Rev. E. J. Bulgin, Dr. George W. White, J. H. B. Shepherd, Dwight E. Potter and R. P. Shepherd.**

**The State convention indorses the efforts of the Los Angeles City Union to secure the next national convention, and will extend an invitation to be borne eastward by the Los Angeles Promotion Committee.**

**SHORT OF CASH.**

**Associated Oil Company's Complaint Reported Same Is That of the Independents.**

**It is a complaint—sounding a little strange that the Associated Oil Company is said to be making at Kern River. Perhaps it is one which Mr. Garfield's men will find worth while to investigate. It is barely possible that there is some connection between the complaint coming at this time and their presence in the State. Probing won't hurt it, anyway.**

**The complaint is nothing more, nothing less, than the fact that the Associated Oil Company has been steadily drilling for oil in the Kern River field, and that the independent producers, who have been steadily drilling for oil in the same field, are being driven out of business by the Associated Oil Company's operations.**

**According to the rumor that has been floating around Bakersfield and has been taken up by the independent producers, the Associated Oil Company has been steadily drilling for oil in the Kern River field, and that the independent producers, who have been steadily drilling for oil in the same field, are being driven out of business by the Associated Oil Company's operations.**

**There seems to be considerable delay about the actual starting of work on the extension of the Santa Fe from Sunset to Midway. Neither the railroad company nor Chasler & Canfield admit anything as to the probable time of such work beginning or anything beyond the fact that a deal has been made by which the railroad acquires a large interest in the oil property. As the names of railroad officials now appear among those of the oil company's officers on official paper, it is evidently considered useless to deny the connection.**

**Though attracting scarcely any attention, the Chasler-Canfield Midway Company has been steadily drilling for oil for some time, and today it has about thirty wells completed. Very little oil is pumped, but whenever the district is opened by a railroad there will be a perfect flood of oil if it is worked to the limit. No less than four distinct strata of oil sand have been shown to exist.**

**The Chasler-Canfield people have let a contract for a consignment of 25,000 barrels of oil to be delivered at the field. It is not known what it is intended to build.**

**OBJECTS TO BEING TARGET.**

**Scraggarian Son-in-Law No Bullet Stopper.**

**McClellan Wants Hamilton of Butte Restrained.**

**Difficulty Over Letter About Wife's Piano.**

**Just now lead a man must be to be "too dead to skin" is a point which the court has been asked to determine by W. McClellan of Los Angeles, who, though about 65 years old, was for a number of years until recently the son-in-law of W. H. Hamilton of Montana; only a few years the senior of his erstwhile relation by marriage.**

**McClellan says Hamilton is a bad man from Butte, and the latter, who came down to attend the wedding of a relative, was arrested at the Van Nuys Hotel yesterday on a charge of making threats to kill.**

**He was arraigned before Justice Young and was released on his own recognizance, to appear at 10 o'clock next Friday.**

**The trouble grew out of correspondence between Hamilton and McClellan, after the wife of the latter had obtained a divorce from him.**

**Some of the correspondence is unfit to print, and in the case of one letter written by Hamilton, McClellan now is in correspondence with the postal authorities, who are investigating to determine whether certain language contained therein is such as to make the sender amenable to the Federal laws.**

**Everything might have been lovely if McClellan had not written a letter to his divorced wife and made some allusion as to how she was into possession of a piano after her third marital ties had been severed.**

**PAPA WRITES SIZZLER.**

**This was too much for Papa Hamilton, who sat down at his stock ranch near Butte and wrote a letter that made McClellan smart.**

**In the copy of the letter written by Hamilton, which has been placed in the hands of the postal officials, appear the following words:**

**"I will meet you at any time or place you choose to name and will fight you to a finish; a 44-caliber Winchester is my weapon. Now, if I hear one word you say against me, I will put you in the asylum or kill you on sight."**

**There also is a clause to the effect that, when the writer gets through with his correspondent, the latter will be "too dead to skin."**

**McClellan made little heed to these picturesque threats while the writer was a thousand miles away, but when he learned that Hamilton was in Los Angeles he took steps to avoid the chance of becoming a human target.**

**The difficulty dates a long way back. It started after McClellan, moved to Pasadena, who lowered the automobile record between San Francisco and New York to 32 days 23 hours last August added to his laurels today by completing the run between Los Angeles and San Francisco in 27 hours 53 minutes elapsed time. This is against 33 hours made last year, the only time previous to the Whitman trial, that an elapsed-time record has been attempted.**

**Whitman has made his run in a 12-horse-power, four-cylinder Franklin runabout, the same car in which he made the transcontinental run last year. He was accompanied by R. C. Hamlin, who alternated with him at the wheel. The 53-hour record was made in a Packard carrying four people, but the party lost its way several times.**

**Whitman knew his road, and in view of the fact that five mountain passes are crossed on the run, the record is a remarkable one. Several cars have claimed faster time between the two cities, but their claims have been based upon actual running time, the drivers sleeping at night and driving only in the daytime. The strain of such a ride makes it a feat in itself. Whitman's transcontinental record was also against the Packard record, and the reduction at that time was nearly a full month.**

**The start from Los Angeles was made at one minute past midnight, Wednesday night, and the run was completed at Market and Third streets in this city at 1:54 o'clock this afternoon. The route was found in good condition, and no serious trouble was experienced along the way.**

**AN FRANCISCO, June 16.—(Exclusive Dispatch.) L. L. Whitman of Pasadena, who lowered the automobile record between San Francisco and New York to 32 days 23 hours last August added to his laurels today by completing the run between Los Angeles and San Francisco in 27 hours 53 minutes elapsed time. This is against 33 hours made last year, the only time previous to the Whitman trial, that an elapsed-time record has been attempted.**

**WAS PROMINENT IN CATHOLICISM.**

**JOHN J. SHAY DIES IN PRIME OF HIS LIFE.**

**Had a Love for Mining Ventures. A Testator, Though a Liquor Dealer—Credited With a Beautiful Family Life and Leaves Hosts of Friends Behind.**

**John J. Shay, a well-known liquor dealer of the city, died at his home, corner of Bunker Hill avenue and Temple street, at noon yesterday.**

**The deceased was a native of Coopers town, N. Y., and would have been 50 years of age in October. When a**

**mere boy he came west, and all his life has been an investor in mining property, which had the greatest fascination for him. He was in the Black Hills country during the excitement of some years ago, and a quarter of a century ago was a resident of the camp at Tombstone, Ariz. When the Bullfrog excitement began recently, he freely invested up there.**

**In fact, he always seems to have been on the trail of mine, and his adventures in that direction brought him to California more than twenty years ago. He finally went to San Francisco and after a few years of business there came to Los Angeles in 1885.**

**Mr. Shay has always been a money-maker, and was on the eve of retiring from business, having acquired a comfortable competency. A few years ago he bought the old Bradbury home, at the corner of Temple street and Bunker Hill avenue, but himself lived in the second house from the corner on the same property.**

**Less than a month ago he and his wife celebrated their nineteenth wedding anniversary, and when taken seriously ill Mr. Shay was planning a visit for himself and Mrs. Shay back to his old home in New York.**

**He was a prominent member of the Young Men's Institute of the Catholic Church, of the Society of St. Vincent de Paul, and of the Hibernians. He was much sought after in Catholic circles and was a member of the Reception Committee on the visit of the Papal delegate last year. Though engaged in the liquor business, it is stated on the authority of a man who has been in his employ constantly for more than six years, that Mr. Shay has never known to take a drink of liquor. His friends cite to his credit his many acts of charity and a beautiful family life. A widow survives him, but their union has never been blessed with any children.**

**The funeral will take place at St. Vibiana's Cathedral at 3 o'clock on Monday morning.**

**ENTERTAINMENT AND SOCIAL.**

**Last evening at Vincent M. E. Church, class Twenty, composed of a dozen of the young people of the Vincent Sunday-school gave a most creditable entertainment, the proceeds going to the school equipment. Miss Edith Behrman was the manager of the affair and Miss Wilkie Gilholm the stage manager. The young folks are all clever entertainers and could give points to some of their older brothers and sisters. It is seldom that so much talent is found in one class. The programme was as follows: "Ten Years Hence," by George Coffman; song, "Juanita," by the class; mandolin solo, Mr. Kramer; reading, "Two Home Comings," Elsie Behrman; whistling solo, Edith Behrman; song, "Love's Sorrow," Besale Devitt; tap-dance concert, class; violin solo, Wilkie Gilholm; "Ten Years Hence," the three Es; piano trio, the three Es; song, "Old Kentucky Home," Mae Koppin; dialogue, Arthur Krull and Chester Herbert; reading, Edith Behrman; "Too Late," The Ten Virgins.**

**REMARKABLE RUN MADE BY WHITMAN.**

**(BY DIRECT WIRE TO THE TIMES.)**

**AN FRANCISCO, June 16.—(Exclusive Dispatch.) L. L. Whitman of Pasadena, who lowered the automobile record between San Francisco and New York to 32 days 23 hours last August added to his laurels today by completing the run between Los Angeles and San Francisco in 27 hours 53 minutes elapsed time. This is against 33 hours made last year, the only time previous to the Whitman trial, that an elapsed-time record has been attempted.**

**BURIED BY COUPON FLOOD.**

**CURIOUS CONDITION THREATENS FIRM'S RUINATION.**

**Photographers Gave Out Free Tickets for Pictures—Their Agent Won't Stop at Agreed-upon Limit and Scatters 'Em Broadcast—'Save Us!' They Cry.**

**"Save us from the diabolical coupon man!" was the almost fearful plea made by Barnett & Son, photographers, to the City Prosecutor yesterday.**

**They are in danger of being ruined in business by a curious complication. According to their story, they made a bargain with a man named L. J. Miller, who was to sell coupons for them. They soon found that the coupon theory didn't work; the holders never bought "pay" photographs; they took the free ones and let it go at that.**

**Barnett & Son saw ruin staring them in the face, but made up their minds to stick it out until the 400 coupons agreed upon between them and Miller were all sold.**

**They have since found that Miller did not stop at 400; it looked too good to Miller. He had a second and third installment of coupons printed. They have frantically ordered him by letter to stop selling them, but got no response.**

**The coupons are still pouring in. It is estimated that between \$2000 and \$3000 worth of free pictures have been contracted for. Barnett & Son know now how to stop the ruinous tide.**

**If they refuse to give the free pictures they will "queer" themselves with the public. If they don't they will be broken.**

**The City Prosecutor was not able to greatly help them; he recommended that they refuse to give the free pictures, and let some of the coupon holders prosecute Miller for obtaining money under false pretences.**

**NO FIREWORKS BUT MUCH FUN.**

**HOW THE NATION'S BIRTHDAY IS TO BE CELEBRATED.**

**Oratorical Pyrotechnics Will Take Place of Red Fire, Rockets and Bombs Because Electric Railway Managers Refuse to Contribute. Big Parade to be a Feature.**

**"Contrary to precedent, there will be no public Fourth-of-July fireworks this year, chiefly because the street railway companies have been too stingy to give their reasonable share of the money to buy them."**

**This was the statement made last evening by William H. Kiler, secretary of the committee having the celebration in charge. Kiler and his associates, H. W. Frank and L. J. Christopher, are incensed at the attitude of the Huntington lines, because of their apparent lack of willingness to do something to make the public show a success. Pursuing the matter further, Kiler said:**

**"With Mr. Frank and Mr. Christopher, I have made three separate appointments to confer with the street-car men about this subject, and never got a chance to talk at all save at the last meeting."**

**"We gave them to understand from the start that if fireworks were expected this year the Los Angeles and Pacific Electric companies would have to contribute \$200 each—which I am sure they would get back many times in car fare, as we proposed to hold a good exhibition in Ascot Park to which everybody would have to ride, if they went at all."**

**He said that the Huntington line, in the matter the railroad men finally announced that they would contribute \$200 to the cause, but that this was the best they could do. That ended further discussion of the matter on both sides.**

**"Had it not been for the agitation on the prohibition election we might have levied a tax on the merchants for the fireworks, but with this piece of folly saddled on the business men, as well as the many little contributions for the convention entertaining and the like, we believe that Spring street and Broadway and Main street have had about all the assessment they can stand for the present."**

**Because there will be no fireworks, however, doesn't signify that there will be no show. On the contrary, arrangements have just been completed for a street parade eclipsing most former ef-**

**Los Angeles Quite Sure of Huge Convention.**

**Promised National Meet of Christian Endeavorers.**

**Twenty-five States Instruct for Angel City.**

**Los Angeles is cutting a wide swath in the field of national conventions. The latest tip is that this city is almost certain to be the meeting place in 1907 of the greatest delegate body in the world—the national convention of the Young People's Society of Christian Endeavor.**

**Los Angeles Endeavorers have received messages from twenty-five State conventions which have passed resolutions in favor of holding the 1907 meeting here. They have also received the personal assurance of nearly an equal number of State presidents that they will use their influence to bring the great gathering to this city.**

**On the 28th inst. a company of energetic and enthusiastic Angelites will start for the national convention to be held in Baltimore, Md., from July 7 to 14. They are all Los Angeles boomers, and will go with official invitations from the Merchants' and Manufacturers' Association, the Chamber of Commerce, the city, county and State Endeavor societies, and a general invitation from the churches of the city.**

**They will present an imposing array of attractions for the Endeavorers, and in this list will be the great Temple Auditorium, which will afford ample provision for the handling of such a great gathering.**

**The claims of this city will be presented by E. C. Lyon, of the Lyon, McKinley, Smith Company, who represents the Promotion Committee composed of himself, Paul C. Brown and Francis D. R. Moore. He will be assisted by the other Los Angeles delegates to Baltimore.**

**It is said that the national convention of the Endeavorers is the largest delegate gathering known in the world. At the meeting in New York 25,000 delegates were registered. The meeting in San Francisco, eight years ago, brought to that city a company of 25,000 people, and the society has grown wonderfully since that time.**

Sunday circulation, 33,344 copies. Given daily average for 1932, day of first three months of 1932, 42,137 copies; Sunday average for same period 61,930 copies.

Yesterday's Regular Edition. . . . . 38,490 Copies.  
THE TIMES has a larger regular bona-fide circulation than any local rival. It circulates widely among the intelligent, industrious, substantial, forward-looking classes. The greatest community business advertising, the finest display, the best classifications, the largest results to advertisers.

Offices: Times Building, First and Broadway  
Entered at the Los Angeles Postoffice for transmission as mail matter of the second class.

## PART II: EDITORIAL, LOCAL AND BUSINESS SECTION

### Pen points

Taking a dark view of the future, it sometimes seems that France may soon have a chance to revenge Sedan. But could she do it, if the chance came?

The Russian Ambassador and the Japanese Minister have made so many journeys to the White House, lately, that they could probably travel the road blindfolded.

After having been soaked to the extent of \$24.00 for plant of a house on the idea of Kilkenny Castle, Howard Gould probably no longer doubts the famous legend of the cat.

In view of the scarcity of ships, instead of creating a fleet, a grand admiral perhaps it would have been far better had the U. S. Navy given him some title connected with the Horse Marines.

The dispatches report that both Japan and Russia are now "moving with the utmost deliberation." Well, so long as they're moving and the fighting stops, there's no special hurry.

If Mr. Witte said all those things which he is suspected of having said, he deserves the title of "black pessimist" much more than he deserves the title of either a statesman or a patriot.

It is charged that Grover Cleveland's connection with the Equitable is merely a "blind." That suggests another solution to the problem as to what we shall do with our ex-President. Use them for blinds.

Perhaps it is violating no international secrets to call attention to the fact that the spirit of brotherly love existing between France and Germany at the present writing is not so warm that it needs incense.

It is noticed that Democratic primaries are again being held in Chicago. About all they seem to do in Chicago is to hold elections and strikes—both of which are bad for any town when frequently indulged in.

In the matter of letters the Japs now purpose adopting Roman characters. In another way they adopted the Roman character some time ago, especially as the same relates to the spirit of conquest and empire.

New York seems destined to become the first city of the world in regard to population, but in most other essential respects it is the last city in the world that a normally-constituted human being should care to reside in.

The latest royal marriage between Gustavus Adolphus of Sweden and Princess Margaret of Connaught seems to have been a really happy affair, after all. We congratulate the happy pair. Good luck, Gus. Good luck, Peggy.

Mr. Taft says in so many words that the "extremely popular" leaders in California are "unreasonable." Tut, tut, Mr. Taft, that's no way for a man to talk who may need the California delegation in the national convention of 1928.

It looks to us as though both the Russian and Japanese representatives in Washington might regret their lack of good deal if they'd never carried their peaches over to the White House and camp there till the blameworthy is settled, one way or another.

It is suspected in Wall Street that Hyde will be the real head of the Equitable, after all, although he will dance when Thomas F. Ryan pulls the strings. Well, when one remembers that famous ball he gave, one must admit that Jimmy ought to be a good dancer.

It is stated that Sweden and England, by reason of that recent marriage of royal youngsters, are now linked together, and yet, in account of the wedding that we have seen says one single word about either sausages or wieners, having played a conspicuous part in the ceremonies.

If the exclusion law is to be so construed or modified as to admit Chinese students, we'll probably find that about 100,000,000 Chinamen have suddenly become inspired with the most intense desire to study everything in the books from Confucius down to Laura Jean Libbey and Mary MacLane.

New York is becoming more and more crowded with unfortunate cliff and cave dwellers, who torture out their lives in tenements without ever giving a thought to the fact that there are millions of unoccupied acres of land throughout the nation where they can live better and breathe easier.

In the middle warfare now being waged in our eastern waters the land defenses seem to have been entirely able to repel the naval attacks made upon them. But if Admiral Dickens will steer around to this Coast and take a walk at San Pedro, in its present condition, he'll have a walk-over.

As now indicated, it appears that it will be the middle of August before the peace plenipotentiaries reach Washington. Then, by the time they have been introduced to one another, and have had a few drinks together, and look around a little for good rooming-houses to put up in, the chances are that the weather will have moderated to a considerable extent.

### BUSINESS.

Outside of a few special movements, the New York stock market was in a tepid state yesterday. Many of the prominent stocks were not traded in until late in the day, and some not at all. Fresh reports of rust in spring-own wheat caused strength in the Chicago wheat market, and sentiment was bullish from start to finish. July closed at 80 1/2 @ 81 1/4.

### THE COURAGE OF JUSTICE.

In dealing with this recalcitrant of the Chinese exclusion problem, let us have the courage of justice. Let us have the firmness to do right for the right's sake. Let us not take counsel of the demagogue, however noisy and persistent may be his proffered advice. Let us "be just and fear not."

The people of the United States do not desire, and will not tolerate, an unrestricted influx of Chinese coolies. Neither does the government of China desire that anything of the sort shall be inflicted upon us. But it is evident that we have given China just cause for offense by reason of the unjust, brutal and harsh manner in which we have enforced our exclusion law. In this enforcement we have far exceeded the law's intent. We have gone beyond legal and just enforcement, even to the point of maladministration of the law. We have treated all Chinese as if they were interlopers and criminals, with no right whatever to visit or remain in this country, unless they were here prior to the enactment of the exclusion law.

Is it to be wondered at that the "worm has turned"? Can we justly complain if the Chinese threaten to boycott our goods, when we have heaped so many indignities upon those of their citizens who are not only entitled to come to our shores, but are entitled to the highest respect? Can we ask China to admit our merchants, our missionaries, our students, and our scientific men, if we treat their men of like standing with disrespect and even "with insolence"? Can we reasonably expect the Chinese to maintain international trade relations with us if we treat them with brutal, shameless, and inexcusable discourtesy?

Manifestly, there can be but one just answer to these pertinent questions. A halt must be called in the maladministration of the law, by which Chinese entitled to admission to this country are subjected to insult and humiliation upon the false assumption that they are interlopers. As a matter of fact, we owe apologies to China for the ill-treatment which we have imposed upon her citizens in the past, and we ought to be courageous enough to make such apology.

The abuses which have grown up are not so much the fault of the law as of the brain construction placed upon it by officials charged with its enforcement. These abuses must be stopped. We must abandon the policy of regarding every Chinaman who lands on our shores as a lawbreaker until he can prove his innocence. For this harsh and unjust policy we must substitute the more humane and just policy of regarding everyone innocent of violating the law until he shall have been proven guilty. At the same time we must safeguard the law against wanton violation. We must prevent, by the utmost possible vigilance, evasion of the law through false pretenses and false testimony.

We cannot hope to exclude undesirable Chinese altogether. A few are bound to slip through the law's meshes in spite of all the vigilance that can be employed. But this will be better than a construction of the law so harsh and unjust that the whole Chinese nation will be justly angered at our narrowness and provincialism, to such an extent that all American products will be boycotted in China, and (very likely) American citizens denied admission to the country.

As Secretary Taft declared in his address at Miami University on Thursday, "One of the great commercial prizes of the world is the trade with the 400,000,000 Chinese." We cannot afford to throw away without just cause this valuable prize, for which we have been contending so long and so ardently. To do so would be a wanton wrong both to ourselves and to China.

As a matter of justice to American labor we could not afford to take so shortsighted a course. The value of our exports to China is large, and this trade might be greatly stimulated under a rational policy of justice and equity. The American labor em-

ployed in the production of these exports would receive much more, in wages, than would be lost to labor by the illegal immigration of a few Chinese coolies. If our exports to China should be cut off entirely, as is threatened, the loss to labor would be very heavy. The coming in of a few Chinese coolies—and the number would be few if the law were properly enforced—would not appreciably affect American labor one way or another.

The Golden Rule is not a one-sided affair. It was intended to work both ways, and that is the only manner in which it can be made to work successfully for any great length of time.

### CAUSES OF RAILROAD ACCIDENTS.

One of the leading traits of the people of this vast country is wastefulness—wastefulness of timber, of by-products and of many other things that might be mentioned, also wastefulness of human life. A report, issued by the Interstate Commerce Commission some time ago, showed that the total number of casualties of persons on railroads in the United States during the fiscal year ended June 30, 1924, reached the immense total of 55,130, including 3787 killed and 51,343 injured. A battle in which so many should be killed and wounded would be regarded as one of the great battles of the world.

Again, let us put it otherwise. Last year the railroads of this country killed one passenger in every 1,957,441 they carried, and injured one to every 84,424. The English roads killed one to every 47,793,320 carried and injured one to every 1,540,745; and the English roads accomplished this while carrying almost two passengers for one that our roads carried.

The first question that naturally arises, when we contemplate these startling figures is, "What is the cause of such a fearful loss of life on American railroads?" It is not a cause, but causes, among the chief of which may be mentioned the following:

Single tracks cause many fatal accidents. When two locomotives, moving in an opposite direction on a single track, come together something is going to happen. In Europe the single track is unknown, except in a few unimportant short branch lines. They should be changed as quickly as possible in this country.

The grade crossing is another frequent cause of disaster. In England all the railroads own their right of way, and when they cross another track or a public highway they go either over or below them. The rights of way are fenced in, and even at a station a person is not allowed to cross the track under penalty of a fine of 30 shillings, elevated footways being provided for the purpose.

The absence of automatic couplers has caused the deaths of many thousands of railroad employees. Only under severe pressure and with great reluctance have the railroad companies gradually introduced these improved life-saving devices. The same is true in regard to the block system, which is compulsory in England and other countries. This provides almost perfect protection from accidents, and should assuredly be made compulsory throughout the land.

Defective rails are another frequent cause of accidents on American railroads. These, it is said, are due to the greed of the steel trust in turning out an inferior quality of rails. It was recently mentioned in The Times that, as a remedy for this evil, the American Railroad Association has decided to change the standard specifications for manufacturers. As this decision is backed by the magnates of an extensive system, there is some probability that it may produce a beneficial result in a reduction in the number of accidents and the consequent saving of human life.

Yet another cause of railroad accidents is found by one investigator in labor unions. In an article recently published in the National Magazine, C. H. Allison, analyzing a bulletin issued by the Interstate Commerce Commission, declares that "discipline on American railroads is weighted down by an incubus of labor-unionism." He says a system of promotion by seniority instead of by merit has been forced upon the railroads by the labor organizations.

We have, however, not yet touched upon what is undoubtedly the most prolific cause of fatal accidents on American railroads. In the article above referred to Mr. Allison points out indisputable proof that every one of the collisions and the most fatal derailments, comprising more than 90 per cent. of the casualties, were directly traceable to the neglect or disobedience of employees. Yes, but to what is this neglect of employees frequently attributable? A recent dispatch descriptive of a railroad wreck, in which many were killed, reported that the conductor of a freight train claimed to have been doing just before the accident. He had probably been on duty too long. It is a fact that in Los Angeles, when there is something of a rush, engineers have sometimes been in the cab for thirty-six hours at a stretch, with scarcely a chance to snatch a bite of food. Nor is this the limit. There are instances on western lines where men have been on the locomotives for sixty hours unrelentingly. This, of course, is an exception, but it is all too common for engineers to be worked until their faculties are benumbed. Nor does the danger end with that run for such an unnatural strain leaves its impress, and the engineer's nerves are not what they should be when he again goes on duty. Again, this unnatural strain on the nerves leads to the drink habit, which is much more common among railroad men than is generally supposed.

Nor is this overworking of railroad men confined to engineers, but applies also to others who have the lives

and limbs of the public in their charge. Not long ago, at an important railroad-junction a few miles from Los Angeles, the station agent was also train dispatcher, "baggage smasher," postmaster, Wells Fargo agent and charged with the typewriting of train orders and reports. After handling heavy baggage and settling disputes about checks with a crowd of passengers he would have to rush in and telegraph, with a shaking hand, the train orders. He had several times applied in vain for an assistant. Once he told a neighbor: "If you hear of a bad accident at this point you will know that it wasn't my fault." Since then he has applied for and received appointment at another station.

At least one company, the Chicago and Northwestern, has taken cognizance of this great evil, and has adopted measures to improve conditions. Several months ago the following dispatch from Chicago was published in The Times: "The management of the Northwestern is taking extraordinary precautions in order to prevent long hours of service in the operating department, and also to see that employees take needed rest. For years the company has had a rule that it shall not count against an employee if he demands rest when he needs it, and now they propose to do everything in their power to help him to get the rest he gets necessary rest. The new regulations are due to the criticism that many railroad wrecks are caused by men working continuously so many hours as to impair their efficiency. In order that a check may be maintained the presence of terminals are being provided with what is known as a 'rest book,' in which the records of every train crew and engine crew are to be kept in detail. In this way the officials now working the time each man in the operating service has been on duty, and the time which elapses before he goes on duty again."

The Chicago and Northwestern Railroad Company is on the right track. Its patrons doubtless feel more security since these regulations have been put in force. To every other railroad company in the United States should be said: "Go thou and do likewise," for in this manner would the dangers of railroad accidents most undoubtedly be greatly diminished. As train men are paid by the hour there is no financial question involved for the companies.

**PESSIMISTIC VIEWS.**  
What's the good of anything in this world of ours?  
What's the good of summer time?  
What's the good of flowers?  
What's the good of winter time?  
What's the good of spring?  
Is there anything to gain?  
Hearin' robin sing?  
Don't yer hate to get around?  
Where there's a sign of life?  
What's the good of a bird?  
Ain't there lots of better things?  
What's the good of a year?  
What's the good of happiness?  
Kin yer tell me? Say—  
Don't yer think it's wastin' time?  
Watchin' children play?  
What's the good of workin' hard?  
Put it ter the test!  
What's the good of gettin' tired?  
What's the good of rest?  
What's the good of havin' brains?  
What's the good of bein' poor?  
What's the good of bein' rich?  
What's the good of anything?  
What's the good of anything?  
Where's the good in any man?  
That thinks an' talks like me?  
—Clifford Flansburgh in Boston Transcript.

**PROMINENT PERSONS.**  
Sir Alma-Tadema is to be paid \$114,000 for his picture, "The Finding of Moses."  
Charles M. Bailey, the millionaire oil-cloth manufacturer, of Baileyville, Me., began his business career in 1847, in a little barn.  
The Marquis Capelli has been appointed financial secretary of King Victor Emmanuel's International Institute of Agriculture.  
Mrs. Mary C. Cobb of Northampton, Mass., has presented Smith College with her magnificent estate in the suburbs of her city.  
Rider Haggard, the English novelist, traveled about 7000 miles in his tour of this country, trying to find a location for colonies for his countrymen.  
Princess Ruffin Smith, Lehigh's eldest brother is the present reigning Ameer of Baluchistan, is in this country. He is making a tour of the world.  
William De Witt Hyde, president of Bowdoin College, in his annual report, recommends the passage of a rule regarding the age of the board of trustees of the college.  
The bidding popularity of Dickens is attested by the fact that more than 200,000 copies of his various books were sold in England alone during December last.  
W. A. Heldt has been elected to the Jane A. Seney professorship of Greek at Stanford University. He has been teaching for nine years in Iowa College.  
Dr. William Royal Stokes and Dr. John S. Fulton of the Maryland board of health insist that they have discovered a curative serum for typhoid fever, after a four years' search.  
Sig. Puccini has induced Sig. Giacosa and Illies to write a libretto for an opera based on the life of Queen Marie Antoinette, to be completed in September. The libretto will be written by the composer, for which he will write the music.  
Senator Frank Borah of Brundage of Connecticut inherits the gift of oratory from his father, and is credited with being forceful, witty, epigrammatic, and his subject matter is well thought out.  
James E. Hyde, city treasurer of Lincoln, Neb., is probably the oldest active municipal officer in the country. He is 82 years of age, but is as vigorous as the opening hour and works continuously until 6 o'clock.  
The University of Montana Biological Station has received a sum from Senator W. A. Clark of Montana, sufficient to defray the expenses of an expedition among the unknown mountains of Montana. It will be under the direction of Prof. M. J. Eldred.  
Earl Nelson, who is in his eighty-second year, is one of the living peers who was a member of the House of Lords when Queen Victoria came to the throne. His Lordship is not a direct descendant of the great Lord Nelson, who left no sons, but is a grandson of his sister, Mrs. Bolton.  
Prof. James Denney, a noted Scottish theologian and professor of the New Testament language, literature and theology has just arrived in Boston. He is 82 years of age, but is as vigorous as the opening hour and works continuously until 6 o'clock.  
The University of Montana Biological Station has received a sum from Senator W. A. Clark of Montana, sufficient to defray the expenses of an expedition among the unknown mountains of Montana. It will be under the direction of Prof. M. J. Eldred.

## BIG MEXICAN MINING DEAL.

Los Angeles Company Buys a Sonora Property.

### Bullfrog Mine to be Tested to Great Depth.

### Vein Lost in Famous Arizona Mine at Yuma.

F. L. Botsford of this city and W. S. Cranz and A. J. Yeager of Nogales have organized the Zambona Development Company for operating an extensive mining property at Minas Nuevas, six miles from Alamos in southern Sonora. The company is a close corporation with Mr. Cranz as president and Mr. Botsford as secretary and treasurer. The main offices will be in Los Angeles.

The mine is one of the old Spanish or Mexican properties, but, unlike many of those, it has not long remained idle, but has been worked almost continuously for a century. Records fragmentary but believed to be authentic in the main—say that about \$5,000,000 was taken out during this period. The product is chiefly silver and copper. So heavy is the production of the mine that the producers of the mine are convinced that they have a good thing.

The late owner is Antonio Goycolea of Alamos. The mine was worked by rather primitive methods. Today the workings are 600 feet deep; there are miles of drifts and tunnels, all told, and a few of the old workings are still open. Every ounce taken out has been packed on the backs of men in the way that was the custom of the old mine. The mine was introduced on the surface but much of it was not up-to-date and will mostly be discarded by the new owners who have expended \$25,000 on new machinery, including a twenty-stamp mill, eight concentrators, hoists, an electric plant. Most of this was purchased in San Francisco by Messrs. Botsford and Cranz in April.

At the bottom of the present workings is found a body of ore, 120 feet wide, average samples from which give returns of about 48 ounces in silver with an ample capital for building a plant. The mine is now improving with depth, very little having been found in the upper workings. This has led to the belief that the Quintana, a mile distant, and one of the best known and most extensively worked properties in the district, has steadily gained in the copper production until now at the 1600-foot level it is a heavy producer of that metal. This property is now owned by the Bank of Paris in Egypt, a French corporation, that took it in payment of a debt some years ago. The mine has been worked on a single shaft and with a plant of moderate capacity, it has produced nearly a million ounces of silver a year. In this mine the best ore began at the 800-foot level where the Zambona is now.

The price paid for the property was \$125,000 and an interest in the company amounting to \$30,000. An interesting fact in this connection is that since purchasing the mine three months ago, millions of gallons of water have been taken from the mine which had become flooded during the unusually heavy rains of last winter. Nearly all had to be hoisted with rawhide buckets, the only appliances then at hand. About seventy men are employed.

At present the nearest railroads are the Sonora at Guaymas and the Stillwell road that is being built from Toluca to Sonora. There is, however, only a distance of about forty miles to a good harbor on the Gulf of California at Agiabampo. The National Metal Company maintains an office in Alamos and buys the output of mines for shipment. The southern extension of the Sonora railroad, which work is about to commence, will pass right through the district.

### DEEP SHAFT AT BULLFROG.

Deep mining is to begin in earnest in the Bullfrog district, according to So Camp, superintendent of the Bullfrog National Bank property, who states that this company will begin sinking a 1000-foot shaft immediately. At present there is no working in the camp over 200 feet so that the results obtained from this work will be of the utmost importance. The mine is a small Bullfrog as a permanent district by demonstrating beyond doubt whether or not the veins go down. Rich ore has been seen at or near the surface in three places. From one streak of eighteen inches to three feet, and from another it has been obtained; from another it has been obtained; and from an eighteen-inch streak near the hanging wall of the big vein, assays of more than \$5000 resulted.

The Southern Nevada Consolidated Telephone & Telegraph Company, which operates the system between Tonopah, Goldfield and Bullfrog, is reconstructing its entire line, the increased facilities for handling the business of the mining camps which has grown to large proportions.

### NEW MEXICO SMELTERS.

The smelter at Deming, New Mexico, is expected to be blown in a few days. Ore is being received at the rate of twenty cars a day. The grinding and laying of track for spurs to the three railroads, the Southern Pacific, the Santa Fe, and the El Paso and Southern, is about completed.

According to El Paso reports the Old Governor, Copper Company, whose properties are in the San Andres Mountains of Otero county, New Mexico, about 150 miles north of El Paso, is about to build a smelter there. The site is now being surveyed. The Pneumatic Concentrator Company, a corporation of Boston capital, has completed the erection of a pneumatic concentrator in Tuerto cañon in the Golden mining district, near Santa Fe, and is reconstructing its entire line, the increased facilities for handling the business of the mining camps which has grown to large proportions.

### DEATH ON THE DESERT.

The recent finding on the desert near Searchlight of the remains of a man who disappeared nearly a year, brings to light another tale of suffering and one that was near to proving fatal. The two prospectors who made the gruesome discovery had been wandering aimlessly on the alkali wastes of Southern Nevada, far from human habitation, with no water and no friendly post to guide them. They had finally found their way to friends and were saved, but it was evidently nothing to thank the authorities of the counties of Southern Nevada for.

This is one of the first that has become widely known—case of suffering on the desert. The hot weather is just beginning, yet troubles are already coming. What will come later? Private enterprise has sunk wells along

the main highways of travel, but that does not help the man who is lost far from the trails, with the thermometer at 110 or more, his water gone, facing the terrible situation—"lost on the desert."

The Times has again urged action. The Los Angeles Chamber of Commerce has called the attention of the authorities to the need of action and the late Legislature of Nevada provided funds for sinking wells and California's lawmakers for providing signposts to guide the traveler, but if the officials of any county have yet taken advantage of these enactments nobody has heard of it. Nye county's commissioners have announced their readiness to act, if someone will show them the way, while most of the others have even advanced this far. It seems as though a harvest of death will be necessary to bring about action.

In this connection many have mentioned what, if true, is certainly worthy of the strongest condemnation that can be printed. Some years ago a number of miners were lost on different points on the desert in San Bernardino county in response to repeated urgings. Unfortunately they were of wood and easily destroyed by even natural causes, but a mining man coming from that section says that in a number of cases men have been known to deliberately cut them down and use them for firewood. The recent act of the Legislature provided that the owners of such mines were also imposed for defacing or destroying them, which is declared to be a felony.

### HAS "PASSED OUT."

### FAMOUS MINE ABANDONED.

PHOENIX (ARIZ.) June 15.—The famous Fortuna mine, one of the most valuable properties that has yielded millions of dollars in gold, has "passed out." About a year ago, while still in rich rock, the miners came upon a "fault," beyond which they have been unable to locate the ore vein. The Fortuna mine has directed the work of tracing the lost vein, but without success. Immense sums have been spent in this work, as it is appreciated that the vein will be worth tens of millions of dollars if found. The Fortuna cyanide tanks, with capacity for 100 tons of cyanide, are now being sold by the company composed of Stephen V. Childs, Dr. Julius Koebig and J. E. Hannon of Los Angeles, Andrew J. Trumbo of Yuma and W. K. Maull of Phoenix. The cyanide plant will be enlarged to the capacity of 200 tons a day and placed on the tailings of the Grand Central mill near Tombstone. The Grand Central, one part of the Tombstone Consolidated Company's holdings, contains a mine that has produced 800,000 ounces of gold in the last eight years. The tailings are estimated at 125,000 tons and assays from \$1 to \$5 a ton in gold and silver. The Tombstone company will receive a royalty on the output.

Yuma is to have an ore-sampling plant, owned by California prospectors, the Arizona Sampling and Smelting Company. Piner ground at Gila City, in Yuma county, near the Arizona Southern Railroad, is to be washed on a large scale by an association of miners, provided with ample capital for building a plant for bringing water under pressure from the river. The placers have been washed with dry washers for forty years, occasional Mexican and Indian "placers" still being found making a dollar or so a day.

The first shipments of machinery for the new 150-ton smelting plant of the Saddle Mountain Mining Company will be landed tomorrow at the end of the Phoenix and Eastern Railroad, in Eastern Pinal county.

Twenty-five miners are now employed on the Oro Grande mine near Wickenburg, a property that had been a mine for a couple of years ago. The wonderfully rich rock that was discovered in the mine has been found, but a ten-stamp mill is operating with apparent profit.

One hundred tons a day of copper ore are being shipped to the Copper Queen smelter from the Imperial mines at

Copper Bell, but that does not help the man who is lost far from the trails, with the thermometer at 110 or more, his water gone, facing the terrible situation—"lost on the desert."

The Times has again urged action. The Los Angeles Chamber of Commerce has called the attention of the authorities to the need of action and the late Legislature of Nevada provided funds for sinking wells and California's lawmakers for providing signposts to guide the traveler, but if the officials of any county have yet taken advantage of these enactments nobody has heard of it. Yuma is to have an ore-sampling plant, owned by California prospectors, the Arizona Sampling and Smelting Company. Piner ground at Gila City, in Yuma county, near the Arizona Southern Railroad, is to be washed on a large scale by an association of miners, provided with ample capital for building a plant for bringing water under pressure from the river. The placers have been washed with dry washers for forty years, occasional Mexican and Indian "placers" still being found making a dollar or so a day.

The first shipments of machinery for the new 150-ton smelting plant of the Saddle Mountain Mining Company will be landed tomorrow at the end of the Phoenix and Eastern Railroad, in Eastern Pinal county.

Twenty-five miners are now employed on the Oro Grande mine near Wickenburg, a property that had been a mine for a couple of years ago. The wonderfully rich rock that was discovered in the mine has been found, but a ten-stamp mill is operating with apparent profit.

One hundred tons a day of copper ore are being shipped to the Copper Queen smelter from the Imperial mines at

Copper Bell, but that does not help the man who is lost far from the trails, with the thermometer at

## San Bernardino and Ventura.

(NEWS REPORTS FROM TIMES CORRESPONDENTS)

## ORANGE GROWER TALKS BACK.

SPITE WORK IS ALLEGED IN ONTARIO LAWSUIT.

Orchardist Against Whom Injunction Was Obtained by Association from Selling His Fruit Independently Sets Forth That That Body Refused to Accept It When There Was a Good Market.

SAN BERNARDINO, June 14.—D. A. Gilmore, an Ontario orange grower, says that James Conroy, Jr., an active director in the West Ontario Citrus Association, told him this morning that the suit which the association has instituted against him for selling his fruit independently of the association is prompted by business feeling, or in other words, it is spite work.

Gilmore's statement, in the form of an affidavit, accompanies a petition in which Fred George prays the Superior Court to dissolve the injunction which the court issued against George on complaint of the association, restraining the former from disposing of his fruit in his two orchards at Ontario. In the petition George alleges that the association in January and April refused to accept the fruit which he had produced at a time when there was a good market, and that a similar refusal was made to accept his fruit in the past. He said he had seen one of the directors, named Sternberg, about it, and the latter had advised him to sell to the association. He said he had accordingly been doing, and that the association had delayed bringing the present action, or at least to catch him at a time when the fruit was scarce and oranges would result in the greatest loss. He has 150 boxes of oranges in one orchard which he says must be sold immediately or they will be lost, and about 2000 boxes of oranges still on the trees which demand immediate harvesting, and he has an advantage in selling this fruit to the association in the sum of \$2500.

He states that the agreement with the association provides only a liquidated penalty in a certain sum per pound, or box, amounting to about a half a cent a pound, as a penalty for any damage the association may suffer by reason of the injunction being dissolved. A. T. Hamilton, Charles D. Adams and security in the sum of \$2500.

STATE HOSPITAL BIDS. The board of managers of the State Hospital at Ontario yesterday opened bids for the erection of the proposed east wing, which will be settled later on, no awards were made. The bids totaled \$51,000, the lowest bid being as follows: Massey, John Hays, Los Angeles, \$51,000; Taylor Bros., Redlands, \$51,000; Blum & Jay, Los Angeles, \$51,000; painting, Horgan, Los Angeles, \$51,000; painting, machinery and electrical company, Los Angeles, \$51,000; E. L. Quinn, Los Angeles, \$51,000.

NINTH-GRADE GRADUATES. The ninth-grade pupils of the public schools held their commencement exercises last night at the pavilion. To the first time that any other school than the High School pupils have had the honor of treating their friends to such exercises, the program was fully as elaborate as any ever given by the High School graduates. The High School graduation took place this evening, and was attended by many fond parents and friends, who had to pay an admission to see the performance.

GOES TO WHITTIER. Herbert Polay was taken to the reform school at Whittier this morning. He is the youth who was found by the police in possession of numerous articles which had been stolen from a store, and had cleverly disguised their appearance by taking them apart and making them up into different whistles.

## SANTA ANA.

## DAYLIGHT BURGLARY.

SANTA ANA, June 14.—A daylight burglary made a small haul in money and jewelry late yesterday afternoon at the home of M. Alencastro on Riverside street, which had been stolen through an unlocked rear door in the absence of members of the family. All the trunks and bureau drawers were thoroughly ransacked and many dollars' worth of money, some trinkets of jewelry and a lady's gold watch were secured. Other money was overlooked. There is no clue to lead to the identification of the burglar, although officers believe the job was done by a local operator familiar with the work of a few.

## COLLEGE-HOPFMAN.

Homer L. Cole, of Huntington Beach was married last night to Miss Jessie Hoffman, of this city at the home of the bride's parents, Mr. and Mrs. J. H. Garrett of the First Baptist Church with the immediate families present as witnesses. Decorations throughout the house were in the colors of the bride and groom. After the ceremony of the nuptials Mr. and Mrs. Cole were driven to their new home in Huntington Beach, where Mr. Cole is in business.

## SANTA ANA BRIEFS.

Emma S. Passer was appointed administrative officer in the Matthew Schneider estate of Anaheim, with bonds fixed at \$2500. In spite of reports to the contrary, graders are still at work upon the extension of the Pacific Electric line from Huntington Beach to Newport Beach. Rumor was persistent that the grading crew had been called off on account of troubles between the electric company and the Gun Club over right of way concessions, but the continuance of the work proves the falsity of the reports.

Members of the Fraternal Aid Association went in a body to Orange last night to participate in a reception tendered to W. M. Scott of Miami, who has returned from the national assembly of the order held at Lawrence, Kan.

## FULLERTON.

FINISH HIGH SCHOOL COURSES. FULLERTON, June 14.—The commencement exercises of the Fullerton High School were held last night. The graduates are: Ralph Tanner, Charles Hansen, Chester A. Montgomery, Ronald B. Colla, Walter Schultz, Leon D. Overton, Stanley Chapman, Lily Strain, Elzora E. Rockman, Katherine Twombly, Fannie Bess, Sue E. Sheppard, Florence Goodwin. The attendance was large. The program included a piano solo by Edna Carpenter, an invocation by Rev. Mr. White, a vocal solo by Spencer Robinson, an address, Rev. Dr. Hugh K. Walker, a violin solo by E. W. Crow.

## STOP CRUELTY IN VENTURA.

SOCIETY IS ORGANIZED FOR THAT PURPOSE.

It is Proposed to Make the Association a County Affair and Prosecute All Offenders to the Limit—Call for Initial Meeting Brings Ready Response from Prominent People.

(SPECIAL CORRESPONDENCE OF THE TIMES)

VENTURA, June 14.—Cruelty to children and to animals in this community has aroused the citizens to the necessity of taking some steps and last evening a meeting was held at the residence of Rev. C. H. Rogers, at which a humane society was organized. The call for the meeting brought a ready response and a number of prominent men and women attended.

The feeling was enthusiastic for the formation of the society. A board of directors was chosen consisting of J. H. Regis, W. L. Lewis, Robert M. Clarke, O. T. Whitting and Rev. Rogers. Mr. Rogers was chosen as the president of the society, while Mr. Whitting was elected secretary. It is proposed to make the association a county affair. It is planned to prosecute offenders to the limit and that one or more members will be commissioned as humane officers, whose duty it will be to investigate and report all cases of cruelty which come under the commission work.

## DONOVAN CASE CLOSING.

The Donovan divorce case was closed abruptly yesterday afternoon after only a short cross-examination of the defendant, when it was expected he would be put upon the rack and interrogated closely. The last witness was Judge Daly, the father of Mrs. Donovan, who testified that he is worth \$75,000 and easily able to care for Mrs. Donovan and her children. The court took the evidence under advisement and will render a decision some time the coming week.

## VENTURA BRIEFS.

An automobile pleasure line is to be established to run to Matilla Springs this summer and to take parties around the Triangle drive.

Prof. Franklin has received word that his wife is in a San Francisco hospital and was recently compelled to undergo an operation.

Yesterday a serious accident befell T. K. Kony, an employe of a machine shop here. While working at a lathe a bit of steel imbedded itself in his eye. He sought prompt treatment with the hope of saving the right of the eye.

## SANTA BARBARA.

## TIGHTER GRIP ON SALOONS.

SANTA BARBARA, June 14.—The City Council at last night's meeting adopted the new ordinance which requires a saloon-keeper to forfeit his liquor license upon the first conviction for violating the saloon closing law. Only one vote was cast against the measure.

## SANTA BARBARA JOTTINGS.

H. H. Seales, formerly with the Santa Barbara Lumber Company, has purchased the 600,000 feet of lumber from the wrecked barkentine, Robert Sudden. Julius Gouley leaves for Surf to work with twenty men in order to unload and load lumber for the summer.

Mr. J. C. Byrd, instructor of English, has received present of a diamond jeweled ring bearing her monogram from some of her pupils who were participants in the High School play supervised by Mr. Byrd.

Twenty-three young people graduated from the High School last night. The chief address was delivered by Dr. William R. Miller, pastor of the First Congregational Church of San Francisco. He was introduced by Prof. Monteth. Rev. Benjamin J. Davis offered an invocation and Miss Truslow rendered vocal solo.

The children of the city's kindergarten were given a picnic today. The picnic was held at the Lincoln kindergarten building and entertained by Mrs. Lulu Mitchell, city supervisor of this part of the school system. She was assisted by the Misses Leland, Bacon, Koch, Gilson and Williams, kindergarten teachers.

## WHIST PLAY.

## DEL MAR TEAM WINS.

RIVERSIDE, June 14.—The second day of the Southern California Whist Tournament was given over exclusively to the team play for the championship cup offered by the Whist Association. From 10 o'clock in the morning until late in the night the match was hotly contested, the teams competing representing the various cities of the southern part of the State. The logical candidates for the cup honors which white players played at rivals gave the "big four" of Los Angeles. The Del Mar team was the "dark horse" of the tournament. Regarded as a constant play worked carefully to the front and one by one defeated all rivals save the "big four" of Los Angeles. The big team, however, proved no exception to the rule. After a close and exciting battle, the Del Mar team, consisting of Mrs. Buckler, Mrs. Waterman, Mrs. Loftus and Mr. Cook, who were defeated by Pasadena. Whist enthusiasts here say no play they had ever witnessed was closer or more exciting. Out of 180 matches played, there was a difference of just seven between the highest and lowest competing teams, which white players played at rivals gave the "big four" of Los Angeles. The Del Mar team, however, proved no exception to the rule. After a close and exciting battle, the Del Mar team, consisting of Mrs. Buckler, Mrs. Waterman, Mrs. Loftus and Mr. Cook, who were defeated by Pasadena. Cure when all else fails.

## Why Horseshoe Paint Gives Better Protection Than Ordinary Paint

THERE'S no secret about good paint. Everybody knows that the best paint must be made of absolutely pure lead, zinc and linseed oil and the necessary color and drier.

## Horseshoe Brand Prepared Paint

We combine zinc with lead because zinc is tough, dries hard and so prevents "chalking." And zinc carries 50 per cent more oil than lead.

That means greater spreading capacity—fewer gallons to buy.

And it means double the wear and best protection for your building—greatest economy in every way.

Because oil is the life of paint. It penetrates the pores of the wood and forms a tough, elastic, waterproof coating—protected by the zinc.

That is why Horseshoe Brand gives better protection than lead and oil alone.

Horseshoe Paint gives better protection than the ordinary adulterated ready-mixed paint because it is the purest prepared paint as the Chemists' Certificate of Analysis Purify on every can.

While ordinary ready-mixed paint is adulterated with kerosene, turpentine, kieselguhr, silica, substitute oils, water, almost anything to cheapen the cost of production.

Naturally these adulterants ruin the spreading capacity as well as the wearing quality of each paint.

So much of this "doped" stuff is offered as pure paint that it is hard to know.

Because you find the proof of purity on every can of Horseshoe Brand Prepared Paint—a Chemists' Certificate of Analysis—should Purify on every can.

For Sale by G. A. THIEL, Los Angeles, California

From 8 to 10 P. M.

All the newest most popular music is included in the evening's entertainment and any or all pieces are for sale in our music department where prices are always below publishers figures.

# Ramburgers Daily Bulletin

SAFEST PLACE TO TRADE

127 to 147 N. SPRING ST. L.A.

## Greatest Pant Sale in Our History

2000 SAMPLE PAIRS OF MEN'S WOOL PANTS AT FROM ONE-THIRD TO ONE-HALF LESS THAN THE REGULAR PRICES.

Our New York buying organization made a "ten strike" when it consummated this great purchase of 2000 pairs of pants from the largest and most representative exclusive pants factory in the United States. It was an entire sample line turned in by their traveling salesmen as also the stock samples used by the factory. The price paid was such a generous reduction under regular that we are going to offer them to you at from one-third to one-half less than they would sell for at regular retail prices. Every man can use several pairs of extra pants in the course of a season and this is an opportunity that no thrifty wage earner will overlook. They are all new in style; some are particularly adapted for workmen's uses while others are pants for dress occasions. Several of our large show windows have been given over to displaying these pants and we would suggest that coming downtown Friday night you will form an accurate idea of the great bargains offered. They have been divided into three lots described and priced as follows:

**Men's \$1.50 Cassimere and Worsted Pants at Lot 1**  
Just 200 pairs in the lot made of good quality Cassimeres and Worsted; neat stripe, pin check and invisible plaid patterns; finished with French waist bands; good Sateen curtain; worked buttonholes; tape bound seams; light and dark colorings; all sizes in the lot and a very desirable pant for workmen's uses.  
**Per Pr. 98c**

**Men's \$3.00 All Wool Dress and Outing Pants at Lot 2**  
This assortment is represented on the first of the three large counters where this immense assortment of sale pants will be displayed. The dress pants are all wool-Worsted, Cheviots and Tweeds; choice line of colorings and patterns; nicely made; new in style. The outing pants are of fine wool Donegals in gray, tan and brown, peg top style with cuff bottoms finished with belt straps; all sizes in the lot and all of them regular \$3.00 values.  
**Per Pair \$1.69**

**Men's \$5.00 Fine All Wool Dress Pants at Lot 3**  
The greatest part of the assortment of 2000 pairs are included in this lot. The materials are fine grade all wool Cassimeres, Cheviots, Worsted and Tweeds; also Corduroys and Cords; elegantly tailored; best of trimmings; light and dark colorings in stylish patterns; all styles and are either plain or peg top styles. Positively not one pair in the lot can be duplicated elsewhere under \$5.00.  
**Per Pair \$2.50**

## Jap and China Silk Waists Underpriced

### The Most Wanted of Summer Garments

This is a special Saturday offering of Jap and China silk waists; all in newest style; best qualities in their respective classes and prices are but little more than actual worth of the material.

**\$4.00 White Jap Silk Waists at \$2.98**

Prettily trimmed with fine Valenciennes lace insertion forming yoke effect; button-in-back style; are nicely made and can not be duplicated anywhere under \$4.00.

**\$5.00 China Silk Waists at \$3.98**

Either black or white trimmed with lace insertions or narrow all-over bow plating; all sizes in the lot and every one a good \$5.00 value.  
SECOND FLOOR.

**\$7.50 China Silk Shirt Waists at \$5.00**

Either black or white; trimmed with double box plating; nicely tailored throughout; very latest in style and are such as other stores sell at \$7.50.

**White China Silk Waists at \$6.50**

Made with the popular surplice fronts of Valenciennes inserting and narrow tuckings; also silk embroidered effects in black and white as well as a number of other new desirable styles.

## Two Leaders from the Silk Suit Sale

**\$15.00 and \$18.50 Silk Shirt Waist Suits at \$9.95**

Both coat and shirt waist styles—colors green, brown, blue, apricot, or black; trimmed with self material or ornaments and all sizes in the lot.  
SECOND FLOOR.

**\$25.00 Silk Shirt Waist Suits at \$13.95**

Made of fine Chiffon Taffeta—blue, black, tan, green or gray; solid colors; or fancy effects; some made with lace yokes; others prettily trimmed with self material.

## Introducing Linen Parasols

The latest novelty and one of the most sensible in parasols is the introduction this season of the white linen parasol, either plain, hemstitched or embroidered, with natural or white handles. We have just received an exceptionally large assortment that are matchless both in quality and price, ranging from \$1.25 up to \$3.50.  
SECOND FLOOR.

**Plain and Fancy Ribbons, worth 35c per yard, at 15c**

Taffeta, Louisene, and satin Taffeta ribbons; widths up to No. 80; plenty of white and black; also black or white gauze and lace stripe effects, ombre stripes and printed warp or plaids.

**New Ribbons, worth 65c, widths 5 to 5 inches, at 25c**

Taffeta, Messaline, satin Taffeta and Louisene—black, white, cream and all street and pastel colorings; soft lustrous quality. Also Persian and Dresden figured, fancy dotted, striped and plaid ribbons. Values to 65c.

## Underpriced Undermuslins—Also Children's Wearables

A combination offering from our undermuslin department and from the children's department of every desirable merchandise much less than regular prices.

**\$1.50 Cambric or Nainsook Gowns at 98c**

Choice of round or square yokes; chemise or Empire style; elaborately trimmed with lace and embroidery; all made full length and width.

**60c Cambric Drawers at 35c**

Two styles to select from—Valenciennes insertion, with deep edging to match or with deep edging and clusters of tuckings; are a regular 60c value.

**Children's 45c Gowns and Skirts at 25c**

The gowns and skirts, in small sizes only; also drawers in sizes 8 to 16 years; all of them good quality; nicely finished and regular 45c values.

**\$3.00 to \$5.00 Finest Gowns, at choice \$1.98**

A delayed shipment intended for last week. Includes all styles of finest Nainsook gowns, profusely trimmed with ribbons, lace and embroidery; long or short sleeves; none worth less than \$2.00 and many up to \$5.00.

**Children's 35c Muslin or Cambric Drawers at 20c**

Finished with embroidery edgings; are in sizes from 12 to 16 years; amply proportioned; well made and regular 35c values.

**Girls' Wash Dresses at \$1.98**

Plain Chambrays, checked or striped Ginghams, plain mercerized effects or white Piques in Buster Brown, bloused or suspender styles; sizes range 4 to 14 years.

**\$1.25 Nainsook Night Gowns at 75c**

Square, V shape or high neck styles; finished with plain hemstitching, lace insertions or embroidery; all of them amply proportioned and in all sizes. A very desirable gown at a moderate price.

**Girls' Mull Hats (Made like cut) \$1.50**

A special feature confined exclusively to our children's department. Mull hats made with silk embroidered crowns; with pom poms on front; daintiest of styles and colors pink, blue or white.  
SECOND FLOOR.

## Stylish Summer Millinery Popularly Priced

Styles the Newest—Prices, Quality Considered, the Lowest

There is no contradiction to our statement that our millinery is far superior in quality and style, lowest in price of any in the city. The artists in our own workrooms design many becoming models while others are the newest and best productions from New York and Paris. The following specials for Saturday:

**Women's \$8 to \$10 Suit Hats at \$4.85**

The season's most wanted shapes and colors in high back millinery of natural or chip braid with Chiffon or silk facings; saucer shape; saloons of braid, all colors; hand made turbans and poles in black and colors. This is a special lot made up for Saturday's selling and are worth from \$8.00 to \$10.00.

**Women's \$6.50 Suit Hats at \$3.50**

Colonial shapes of two-tone straw braid with lace braid made over wire frame with shirred sides facing and ruffles trimmed with ribbons and flowers. A number of dainty styles for young girls. All of them \$4.00 values.

**Women's \$3.50 Street Hats, Newest Shapes, at \$1.95**

Polo shapes of natural Cuba braid with braid pom poms; Colonial shape hats with velvet trimming; saucer shape saloons with pompons and velvet ribbons; hand made turbans of Jap braid with ornaments and straps of velvet as trimming; every wanted color in the assortment to go with any street suit and are values up to \$3.50.

**Women's \$2.50 Canvas Hats at \$1.48**

The latest novelty in the newest shapes—just the thing to wear with wash dresses; are of white or linen colored Canvas cloth; some with embroidery crowns; others with colored velvet bindings. Other stores sell them at \$2.50.

**Women's \$4.00 Dress Hats at \$2.48**

Large flare shapes of Cuba lace braid made over wire frame with shirred sides facing and ruffles trimmed with ribbons and flowers. A number of dainty styles for young girls. All of them \$4.00 values.

**Women's \$75c French Lisle 50c**

Low neck, sleeveless style, made with Valenciennes lace yoke and shoulder straps to match; finished with silk tape around neck and shoulders.

**Women's 75c French Lisle 50c**
